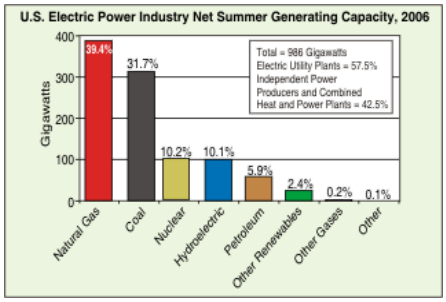
Energy Information Administration Brochures

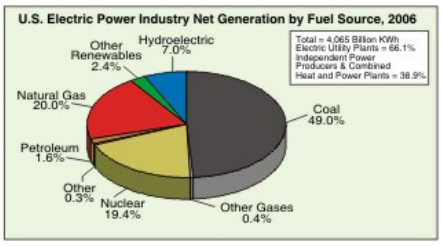
Brochure #: DOE/EIA-X058
Release Date: November 2007
Next Release Date: November 2008

Electricity InfoCard 2006

Energy Information Administration

Side One





U. S. Electric Power Industry Emissions

	1996	2001	2006
	(Thousand Metric Tons)		
Carbon Dioxide	2,161,258	2,389,745	2,459,800
Sulfur Dioxide	12,906	11,174	9,524
Nitrogen Oxides	6,282	5,290	3,799

Source: *Electric Power Annual, 2006*

Side Two

U. S. Electric Power Industry Consumption & Cost of Fossil Fuels for Electricity Generation, 2006

	Consumption	Cost (Cents per million Btu)
COAL (thousand tons)	1,035,346	169
PETROLEUM (thousand barrels)	115,370	623
NATURAL GAS (million cubic feet)	6,869,624	694
