U.S. Department of the Interior
National Park Service
Natural Resource Stewardship and Science
Fort Collins, Colorado
The National Park Service, Natural Resource Stewardship and Science office in Fort Collins, Colorado, publishes a range of reports that address natural resource topics. These reports are of interest and applicability to a broad audience in the National Park Service and others in natural resource management, including scientists, conservation and environmental constituencies, and the public.

The Natural Resource Report Series is used to disseminate high-priority, current natural resource management information with managerial application. The series targets a general, diverse audience, and may contain NPS policy considerations or address sensitive issues of management applicability.

All manuscripts in the series receive the appropriate level of peer review to ensure that the information is scientifically credible, technically accurate, appropriately written for the intended audience, and designed and published in a professional manner.

Data in this report were collected and analyzed using methods based on established, peer-reviewed protocols and were analyzed and interpreted within the guidelines of the protocols.

Views, statements, findings, conclusions, recommendations, and data in this report do not necessarily reflect views and policies of the National Park Service, U.S. Department of the Interior. Mention of trade names or commercial products does not constitute endorsement or recommendation for use by the U.S. Government.

This report is available from the Social Science Division (http://www.nature.nps.gov/socialscience/index.cfm) and the Natural Resource Publications Management website (http://www.nature.nps.gov/publications/nrpm/).

This report and other reports by the Visitor Services Project (VSP) are available from the VSP website (http://www.psu.uidaho.edu/c5/vsp/vsp-reports/) or by contacting the VSP office at (208) 885-2585.

Executive Summary

This report profiles a systematic random sample of participants who visited Cumberland Island National Seashore between September 25, 2012 and March 26, 2013. A total of 674 visitors were approached, of whom 663 accepted the questionnaire and 626 completed and returned the instrument, resulting in a response rate of 93%.

Group size and type
Fifty-three percent of respondents were in groups of two people and 32% were in groups of four or more. Fifty-three percent of respondents were in family groups.

State or country of residence
United States visitors were 96% of total visitation during the survey period, with 33% from Georgia, 29% from Florida, and the rest from 26 other states. There were too few international visitors to provide reliable data.

Frequency of visits
Sixty-four percent of respondents were first-time visitors, 14% had visited two times, and 17% had visited four or more times.

Age and income
Thirty-four percent of respondents were 46 to 60 years old and 31% were 61 to 70 years old. Twenty percent reported a household income between $100,000 and $149,999 and 19% had an income between $50,000 to $74,999.

Information sources
Most respondents (94%) obtained information about the park prior to their visit, and did so through the park website (56%), friends/relatives/word of mouth (41%), and previous visits (33%). Most visitors (92%) received the information they needed.

Length of stay
The total length of visit ranged from one-quarter hour to seven days. The average (mean) length of stay was 13 hours, but the most frequent response (mode) was four hours by 18% of respondents.

Activities on this visit
The most common activities were general sightseeing (88%), wildlife viewing (81%), and picnicking (62%).

Sites visited
The most common sites visited were Dungeness Ruins (87%), beach (85%), and visitor center (80%).

Land and Legacies Tour
Eighty-five percent of respondents did not take the Land and Legacies Tour. About half (51%) of respondents were not aware of the tour.

Interest in Plum Orchard Mansion tour
If it were offered, 80% of respondents would be interested in a guided tour of Plum Orchard Mansion. Sixty-nine percent would be willing to pay a fee of $10 per adult and $7 for senior citizens and children under 12.

Satisfaction with services
A majority of respondents were “very satisfied” or “completely satisfied” with each of the following services: ferry/water transportation (95%), picnic areas (92%), campsites (92%), ranger-led programs (90%), special events/programs (89%), information services (82%), and visitor center/exhibits (79%).

Overall quality
Most respondents (94%) rated the overall quality of facilities, services, and recreational opportunities at Cumberland Island National Seashore as “very good” or “good.”

For more information about the Visitor Services Project, please contact the Park Studies Unit at the University of Idaho at (208) 885-2585 or the following website http://www.psu.uidaho.edu.
Acknowledgements

We thank Ally Begly for assisting with the report, Maggie Tyler for overseeing the fieldwork, Anthony Bates who was on detail from the Selma to Montgomery NHT during the survey period, the staff and volunteers of Cumberland Island National Seashore for assisting with the survey, and Matthew Strawn for data processing.

About the Authors

Yen Le, Ph.D., is the acting Director of the Park Studies Unit and assistant professor with the Department of Conservation Social Sciences, University of Idaho.
Introduction

This report describes the results of a visitor survey at Cumberland Island National Seashore in St. Marys, Georgia, conducted between September 25, 2012 to March 26, 2013 by the National Park Service (NPS) Visitor Services Project (VSP), part of the Park Studies Unit (PSU) at the University of Idaho.

As described on the National Park Service website, “Cumberland Island National Seashore is Georgia’s largest and southernmost barrier island. Here pristine maritime forests, undeveloped beaches and wide marshes whisper the stories of both man and nature” (http://www.nps.gov/cuis/index.htm retrieved April 2013).

Organization of the Report

This report is organized into three sections.

**Section 1: Methods**
This section discusses the procedures, limitations, and special conditions that may affect the study results.

**Section 2: Results**
This section provides a summary for each question in the questionnaire and includes visitor comments to open-ended questions. The presentation of the results of this study follows the order of questions in the questionnaire.

**Section 3: Appendices**
Appendix 1. Visitor Comments
Appendix 2. The Questionnaire. A copy of the questionnaire distributed to respondents.
Presentation of the Results

Results are represented in the form of graphs (see Example 1), scatter plots, pie charts, tables, and text.

1. The figure title describes the graph’s information.

2. Listed above the graph, the “N” shows the number of individuals or respondents responding to the question. If “N” is less than 30, “CAUTION!” is shown on the graph to indicate the results may be unreliable.

   * appears when the total percentages do not equal 100 due to rounding.

   ** appears when total percentages do not equal 100 because visitors could select more than one answer choice.

3. Vertical information describes the response categories.

4. Horizontal information shows the number or proportion of responses in each category.

5. In most graphs, percentages provide additional information.

Example 1

![Figure 14. Number of visits to the park in past 12 months](chart.png)
Methods

Survey Design and Procedures

Sample size and sampling plan

All VSP questionnaires follow design principles outlined in Don A. Dillman’s book *Mail and Internet Surveys: The Tailored Design Method* (2007). Using this method, the sample size was calculated based on the park visitation statistics of previous years.

Due to the nature of the study, eligible participants only included visitors who were at least 18 years of age who visited Cumberland Island National Seashore during the survey period. Only one questionnaire was offered to each individual group. If there was more than one adult in the group, we used the next birthday method to randomize selection of the survey participant. Upon completion of the tour, selected individuals were offered a chance to complete a questionnaire while they were waiting for the ferry to return to the mainland. The selected individuals were instructed to return the completed questionnaire to a locked box on the island or at the visitor center. Every participant was asked three questions, and gender was noted, for checking non-response bias.

1. Is it your first visit to the island?
2. What is your zip code (or name of country)?
3. What is your age?

The information was recorded on a survey log. Reasons for refusing to participate in the survey were also noted when appropriate. During the survey period between September 25, 2012 to March 26, 2013 a total of 674 visitors were approached, of whom 663 accepted the questionnaire and 626 completed and returned the instrument, resulting in a response rate of 93%.

Questionnaire design

The Cumberland Island National Seashore Visitor Survey questionnaire was developed through conference calls between the park and the VSP staff to design and prioritize questions. Several iterations of the questionnaires were circulated among park staff, the NPS Southeast Regional Office, and transportation planning specialists. The final version of the questionnaire incorporated all comments through several editing rounds. A pilot of the instrument was conducted using a group of graduate students at the University of Idaho. The pilot group helped to refine the questions and improve clarity. Finally, the questionnaire was reviewed and approved by U.S. Office of Management and Budget (OMB).

The questionnaire includes questions specific to the visitor experience on their visit to Cumberland Island National Seashore and general question to help establish demographics of park visitors. Many questions ask respondents to choose answers from a list of responses, often with an open-ended option, while others are completely open-ended. The questionnaire was designed in booklet form with an appropriate size to fit the lock box.
**Survey procedure**

The survey was conducted on site by Cumberland Island National Seashore staff and volunteers. The survey distributors were instructed to approach visitor groups who have completed their visit and were waiting for the ferry to go back to the mainland. Potential survey participants were identified as they were waiting for the ferry around the dock area. Visitors were greeted, briefly introduced to the purpose of the study, and asked to participate. If visitors agreed, they were asked which member (at least 18 years old) had the next birthday. The individual with the next birthday was selected to complete the questionnaire for the group. The participants then had a chance to complete the questionnaire while waiting for the ferry to transport them to the mainland. Since the questionnaire was completed on-site, follow-up was not necessary.

**Data analysis**

Questionnaire responses were entered twice and double-key validation was performed on numeric and short text responses. The remaining checkbox (bubble) variables were read by optical mark recognition (OMR) software. Responses to open-ended questions for paper were categorized and summarized prior to data analysis.

Numeric data were processed and descriptive statistics were calculated using Statistical Analysis Software® (SAS) and IBM SPSS Statistics.

**Limitations**

As with all surveys, this study has limitations that should be considered when interpreting the results.

1. This was a self-administered survey. Respondents completed the questionnaire after their visit, which may affect their recall. Thus, it is not possible to know whether visitor responses reflected actual behavior.

2. The data reflect visitor use patterns at the selected sites during the study period of September 25, 2012 to March 26, 2013. A lack of personnel available to distribute questionnaires, and a decrease in visitation levels caused the survey period to be extended. The results present a ‘snapshot in time’ and do not necessarily apply to visitors during other times of the year.

3. Caution is advised when interpreting any data with a sample size of less than 30, as the results may be unreliable. When the sample size is less than 30, the word “CAUTION!” is included in the graph, figure, table, or text.

4. Occasionally, there may be inconsistencies in the results. Inconsistencies arise from missing data or incorrect answers (due to misunderstood directions, carelessness, or poor recall of information). Therefore, refer to both the percentage and N (number of individuals or respondents) when interpreting the results.

**Special conditions**

Since the survey was conducted over a long period of time, the changes in weather include a wide range of conditions from sunny, nice days to stormy, rainy weather. The survey was not distributed during the two holiday periods of Thanksgiving and Christmas due to lack of staffing.
Checking non-response bias

Because the response rate was under 100% some errors may occur due to non-response bias. In order to determine the effect of non-response bias, an independent T-test and three Chi-square tests were used to determine the differences between respondents and non-respondents (see Tables 1 – 4). The four variables used in the tests were respondent’s age, gender, whether the respondent was a first time visitor, and the distance from home to St. Marys. The hypotheses were that respondents and non-respondents were not significantly different in each of those comparisons. An independent t-test was conducted to compare average age. Chi-square tests were conducted to compare respondents’ gender, whether they were first time visitors, and distance from home. All four tests have p-value greater than 0.05 indicating insignificant differences between respondents and non-respondents. The non-response bias thus is judged to be insignificant (the results were not skewed towards any specific demographic group).

Results

Information sources prior to visit

Question 1a
Prior to this visit, how did you obtain information about Cumberland Island National Seashore?

Results
• 94% of respondents obtained information about Cumberland Island National Seashore prior to their visit (see Figure 1).

• As shown in Figure 2, among those respondents that obtained information about Cumberland Island National Seashore prior to their visit, the most common sources used were:

  56% Cumberland Island National Seashore website
  41% Friends/relatives/word of mouth
  33% Previous visits

  “Other” websites (7%) were:

  Cumberland Island NPS website
  Tripadvisor.com
  Georgia State Parks
  Saint Marys
  Google
  Phbandjadventures.com

  “Other” sources (11%) were:

  Road Scholar program
  Newcomer’s Club – St. Simons Island
  Georgia State University – Touch the Earth
  Member of Atlanta Outdoor Club
  Sailing/waterway/boating guide book

Figure 2. Sources of information used by respondents prior to visit

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
**Question 1b**
From the sources you used prior to this visit, did your personal group receive the type of information about the park that you needed?

**Results**
- 92% of respondents received the information they needed prior to their visit (see Figure 3).

**Question 1c**
If NO, what type of park information did you need that was not available? (Open-ended)

**Results**
- Respondents listed the following types of information that they needed, but was not available:
  - More information about facilities (rentals, campsites, tours, etc.)
  - Clearer info about trail length, better trail maps, etc.
  - Bug/insect information
  - Shoe type
  - Website should be updated, more inclusive
  - Need shuttle information
  - Didn’t realize Stafford was private property
  - Bike rental
  - Wanted to hear about what was available on island
  - Website not clear about walking opportunities

---

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer*
Sites visited

Question 2
Please list all the sites that you visited at Cumberland Island National Seashore on this visit.

Results
• As shown in Figure 4, the sites that most respondents visited at the park were:
  - 87% Dungeness Ruin
  - 85% Beach
  - 80% Park visitor center

• “Other” sites (9%) were:
  - Backcountry campsites
  - Beach
  - Bluff and river
  - Brickhill Campground
  - Campsite
  - Green Cemetery
  - Greyfield Beach
  - Greyfield Inn
  - Marsh at Dungeness ruins
  - Ranger station
  - Restrooms
  - River Trail
  - Sea Camp
  - Sea Camp Campground
  - Sea Camp Ranger Station
  - Showers
  - Southend Trail
  - Stafford Beach
  - Stafford Beach Campground
  - Walks in natural areas
  - Willow Pond and Table Point Trails

N=610 respondents**

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
Length of visit

Question 3

a) On this visit to Cumberland Island National Seashore, how much time in total did you spend on the island?

b) Did you visit the park on more than one day? If yes, how many days?

Results

- The total length of visit ranged from one-quarter hour to seven days. (Stays are limited to seven days maximum.)

- 42% of respondents spent four to six hours visiting the island (see Figure 5).

- The most frequent responses were four hours (18%), seven hours (14%), and 4.5 hours (11%).

- The average (mean) length of visit was 13 hours.

- 19% of respondents reported that they visited the island on more than one day (see Figure 6).

- For those who visited the park on more than one day, 76% spent two or three days (see Figure 7).

*total percentages do not equal 100 due to rounding

**total percentages do not equal 100 because visitors could select more than one answer
Satisfaction with shuttle service

Question 4a
Currently Cumberland Island National Seashore offers a free, unscheduled shuttle service to transport visitors along 3-mile loops at the south end of the island from Dungeness Dock to Dungeness Ruins and Sea Camp. On this visit, did you take the South End Shuttle?

Results
• As shown in Figure 8, only 2% of respondents reported using the shuttle service during their visit.

CAUTION: The shuttle service was only offered for a brief period of time at the beginning of the survey period. The shuttle vehicle was not running for the remainder of the time. Thus the percentages used did not reflect the actual demand for the service.

Question 4b
If Yes (took the shuttle service), how satisfied were you with the shuttle service?

Results
• Since a very small proportion of respondents actually had an opportunity to utilize the shuttle service, there were not enough data to provide reliable results. The number of respondents who rated the service is shown below in Table 5.

Table 5. Satisfaction of shuttle service (n=14).

<table>
<thead>
<tr>
<th>Level of Satisfaction</th>
<th>Number of Respondents</th>
</tr>
</thead>
<tbody>
<tr>
<td>Not at all satisfied</td>
<td>1 (7%)</td>
</tr>
<tr>
<td>Slightly satisfied</td>
<td>1 (7%)</td>
</tr>
<tr>
<td>Somewhat satisfied</td>
<td>4 (29%)</td>
</tr>
<tr>
<td>Very satisfied</td>
<td>8 (57%)</td>
</tr>
<tr>
<td>Completely satisfied</td>
<td>0 (0%)</td>
</tr>
</tbody>
</table>

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
Reasons for not using the shuttle service

Question 5
If you did not take the South End Shuttle Service during this visit, what prevented you from using the shuttle service?

Results
- 68% of respondents reported they were not aware of the shuttle service (see Figure 9).
- 40% preferred to walk/bike.
- “Other” reasons (14%) included:
  - Back condition
  - Backpacking
  - Came too late
  - Did not know about it
  - Don’t like added impact of shuttles
  - Dungeness walking tour
  - Group walking tour
  - Have friend on island with car
  - Lack of time
  - No car seats
  - Not available
  - On another tour
  - Other activities
  - Our teachers
  - Rented bikes
  - Seeing the wild horses

CAUTION: The shuttle service was only offered for a brief period of time at the beginning of the survey period. The shuttle vehicle was not running for the remainder of the time. Thus the results may not accurately reflect the reason for not using the shuttle service.

Figure 9. Reasons respondents who did not take the shuttle service

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
Activities this visit

Question 6a
On this visit, in which activities did you participate within Cumberland Island National Seashore?

Results

• As shown in Figure 10, the most common activities in which respondents participated were:

  88% General sightseeing
  81% Viewing wildlife
  62% Picnicking

• “Other” activities (11%) were:

  Boy Scouts
  Hiking/walking
  Hunting shark’s teeth
  I came to see the houses
  Long nap on beach
  Mini bus tour and south end of island tour
  Museum
  Photography
  Sea kayaking
  Seeing horses
  Shell collecting
  Shuttle to Plum Orchard
  Taught Leave No Trace ethics
  Wanted to walk
  Wildfire control research

N=602 respondents**

Figure 10. Activities this visit

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
**Preferred activities on a future visit**

**Question 6b**
If you were to visit Cumberland Island National Seashore in the future, in which activities would you prefer to participate?

**Results**
- As shown in Figure 11, the activities that respondents most preferred for a future visit were:
  - 65% Viewing wildlife
  - 64% General sightseeing
- “Other” activities (10%) were:
  - Hiking
  - Hunting shark’s teeth
  - New mansions
  - Relaxing with book
  - Riding that shuttle
  - Seeing horses
  - Seeing the movie about Cumberland Island
  - Shell collecting
  - Shuttle to Plum Orchard
  - Staying at bed and breakfast
  - Staying at Greyfield Inn
  - Taking tour to north end of island
  - Teaching Leave No Trace
  - Various species
  - View turtles, hatching/heading back to ocean
  - Visiting wilderness area
  - Walking on beach
  - Wild horse rodeo/lasso activity

![Figure 11. Activities preferred on a future visit](image_url)

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
Reasons for not taking Lands and Legacies Tour

Question 7
Currently Cumberland Island National Seashore offers a guided motorized tour of the North End of the island called the "Lands and Legacies Tour." The tour is guided by park staff, takes five to six hours, and includes both natural and cultural sites.

a) Prior to receiving this questionnaire, were you aware of the Land and Legacies Tour?

b) On this visit, did you take the Lands and Legacies Tour?

c) If No, what prevented you from taking the Lands and Legacies Tour on this visit?

Results
- 49% of respondents were aware of the Lands and Legacies Tour (see Figure 12).
- 15% of respondents indicated that they took the Lands and Legacies Tour on this visit (see Figure 13).

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
Reasons for not taking Lands and Legacies Tour (continued)

Results

- 25% respondents listed “tour is too long, did not have time” as the reason for not taking the Lands and Legacies Tour (see Figure 14).

- 16% were generally not interested in guided tours.

- “Other” reasons (52%) were:
  - Arrived too late
  - Backpacking
  - Came to see horses
  - Did not know about it
  - Disagree with high impact of tours
  - Ferry schedule
  - Forgot
  - Had children along
  - Had not enough money

  - Hunt in progress
  - Just relaxing
  - Next visit
  - Not enough time
  - Not interested
  - On a planned tour
  - On Road Scholar tour
  - Physical condition
  - Short visit
  - Too early
  - Took a different tour
  - Tour was full
  - Tour was too long
  - Wanted to walk
  - Was already on North end

Figure 14. Reasons for not taking the Lands and Legacies Tour

N=456 respondents**

Reason

- Tour is too long, did not have time 25%
- Generally not interested in guided tours 16%
- Wanted to go but could not make a reservation 10%
- Had taken it in the past 4%
- Cost of tour is too high 4%
- Vehicle looked uncomfortable for a long trip 2%
- Other reasons 52%

*total percentages do not equal 100 due to rounding

**total percentages do not equal 100 because visitors could select more than one answer
**Interest in Lands and Legacies Tour on a future visit**

**Question 8**
If you were to visit Cumberland Island National Seashore in the future, would you be interested in taking the Lands and Legacies Tour?

**Results**
- 65% of respondents indicated that they would be interested in taking the Lands and Legacies Tour on a future visit to the park (see Figure 15).

![Figure 15. Interest in the Lands and Legacies Tour on a future visit](image)

*total percentages do not equal 100 due to rounding*

**Opinions about Lands and Legacies Tour fees**

**Question 9**

a) Currently the charge for the Lands and Legacies Tour is $15 per adult and $12 for senior citizen and children under 12. In your opinion, is this amount appropriate?

b) On a future visit, would you be willing to pay $20 per adult, and $17 for senior citizens and children under 12, if the fees were used to fund the increasing costs of operating the Lands and Legacies Tour?

**Results**
- 84% of respondents thought the current fee for the tour were “about right” (see Figure 16).
- 41% of respondents would be willing to pay the proposed fees if they were to take the tour on a future visit (see Figure 17).
- 31% said it was unlikely they would be willing to pay the proposed fees.

![Figure 16. Appropriateness of current fee](image)

![Figure 17. Willingness to pay proposed fees](image)

*total percentages do not equal 100 because visitors could select more than one answer*

**total percentages do not equal 100 due to rounding**
**Interest in taking Plum Orchard Mansion tour**

**Question 10a**
If transportation was offered would you be interested in taking a guided tour of Plum Orchard Mansion?

**Results**
- 80% of respondents would be interested in taking the Plum Orchard Mansion tour (see Figure 18).

![Figure 18. Interest in Plum Orchard Mansion Tour](image)

**Willingness to pay Plum Orchard Mansion tour fee**

**Question 10b**
Would you be willing to pay a fee of $10 per adult and $7 for senior citizens and children under 12 to take the Plum Orchard Mansion tour?

**Results**
- 69% of respondents were willing to pay the proposed fees to take the Plum Orchard Mansion tour (see Figure 19).

![Figure 19. Willingness to pay the tour fee](image)

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer*
**Services used**

**Question 11a**
On this visit to Cumberland Island National Seashore, please indicate how satisfied you were with the following services.

**Results**
- From this question, data was collected about the proportion of use for each service.
- 94% of respondents used the ferry/water transportation service (see Figure 20).
- 87% used information services.
- The least used service was "special events/programs" at 8%.

![Figure 20. Services used](image)

*total percentages do not equal 100 due to rounding

**total percentages do not equal 100 because visitors could select more than one answer
Visitor satisfaction with services used

- Table 6 shows respondents’ satisfaction with each service provided by the park among those who used the services.

- Figure 21 shows the combined proportions of “very satisfied” and “completely satisfied.”

- The service that received the highest combined proportions of “very satisfied” and “completely satisfied” was ferry/water transportation service at 95%.

- The service that received the highest proportion of “not at all satisfied” was bookstores/retail (3%).

Overall satisfaction

Question 12
Overall, how would you rate the quality of the facilities, services, and recreational opportunities provided to you at Cumberland Island National Seashore during this visit?

Results
- 94% of respondents rated the overall quality as “very good” or “good” (see Figure 22).
- Less than 1% of respondents rated the overall quality as “very poor” or “poor” (total of 3 people).

Figure 22. Overall quality rating

Visitors with organized groups

Question 14
On this visit, were you part of a larger organized group (such as a tour, school, scout, church group, etc.)?

Results
- 9% of respondents were with an organized group (see Figure 23).

Group type

Question 15a
On this visit, which type of personal group (not guided tour/school/other organized group) were you with?

Results
- 53% of respondents traveled in family groups (see Figure 24).
- 27% traveled with friends.
- “Other” groups (5%) were:
  - Road Scholar group
  - School group
  - Kayaking group
  - Church group
  - Scouts
  - Guided packing

Figure 23. Respondents with an organized group

Figure 24. Group type
**Group size**

**Question 15b**

On this visit, how many people were in your personal group, including yourself?

**Results**

- The smallest group size was one person and the largest group size was 34 people.
- Average group size was four people, and median (50% more and 50% less) was two people.
- 53% were in groups of two (see Figure 25).
- 32% were in groups of four or more.
- 83% of groups were adult-only groups.
- 17% of groups traveled with children under 18 years of age.

![Figure 25. Group size](image-url)
**Respondent age**

**Question 16**
What is your age?

**Results**

Note: the questionnaires were only distributed to visitors aged 18 or older, thus there are no respondents under 18 years old.

- Respondent ages ranged from 18 to 86 years.
- 42% of respondents were 56 to 70 years old (see Figure 26).
- 31% were 41 to 55 years old.

Respondent place of residence

Question 17
What is your zip code? If you are not from the U.S please specify the name of your country.

Results
- 33% of respondents were from Georgia (see Table 9).
- 29% were from Florida.
- Smaller proportions came from 41 other states.
- 4% of respondents came from other countries, as shown in Table 10, although this data must be viewed with CAUTION! due to the small number of respondents.

Number of visits to Cumberland Island National Seashore

Question 18
Including this visit, how many times have you visited Cumberland Island National Seashore?

Results
• 64% of respondents were first time visitors (see Figure 27).
• 22% had visited three or more times.
• 14% had visited the park twice.

Figure 27. Number of visits to park
Respondent household income

Question 19a
Which category best represents your annual household income?

Results
• 20% of respondents reported a household income of $100,000 to $149,999 (see Figure 28).
• 19% had incomes between $50,000 and $74,999.
• 14% had incomes between $75,000 and $99,999.

![Figure 28. Respondent household income](image)

Respondent household size

Question 19b
How many people are in your household?

Results
• 59% of respondents had two people in their household (see Figure 29).
• 16% were in a single person household.

![Figure 29. Number of people in household](image)
## Additional comments

**Question 20**

Is there anything else you would like to tell us about your visit to Cumberland Island National Seashore? (Open-ended)

**Results**

- Table 11 shows a summary of visitor comments. The transcribed open-ended comments can be found in the Visitor Comments section.

Appendix 1. Visitor Comments

This section contains visitor responses to open-ended questions.

**Question 13.** If you were a park manager planning for the future of Cumberland Island National Seashore, what would you propose? Please be specific.

- A board with info of what there is to do rather than leave it just to the volunteers
- A few more trail signs w/ distance stated
- A play area for children
- A shuttle to Plum Orchard for those that only have a few hours or want to do Plum Orchard + other.
- Access and tours of more of the island
- Access to the north not requiring all day/shuttle north to south every hour
- All ruins be labeled with an explanation of how it was used
- Allow people to bring their own bikes on the ferry for day trips
- Any more publicity could harm this fragile gem. Keep it wild please.
- As is
- Backcountry permit holders should be evaluated on Leave No Trace.
- Better advertisement and promotion of interpretive programs
- Better communication regarding bike rentals
- Better lighting in museum, better map and signage
- Better marked trails
- Better reservation system
- Better signage
- Better signage from beach back to dock
- Better signage from Dungeness ruin to seashore
- Better signage of distances of trails/roads
- Better signage to the beach over the dunes; later ferry at 7 PM
- Better signage! For example Dungeness signage to designate ruins, outbuilding, etc. history and use of these.
- Better signage.
- Better signs in backcountry
- Better signs/information at each relic building
- Better trail markings, especially at beach
- Better walking maps (hiking)
- Bigger souvenir shop
- Boat rentals
- Cabins (like at Hanna Park)
- Can't think of anything
- Clear trails Mill Pond - bad make sure backpackers know where water sources
- Continual north to south shuttle stopping at each major site - would be willing to pay $20
- Continue offering free tours.
- Continue to protect as is. We like not having so many people.
- Distances to next area, also difficulty of trail (easy to hard) more benches for those who have problems walking
- Do not allow vehicles on beach
- Don't change a thing.
- Don't change anything!
- Don't know enough to offer advice
- Easy to make reservations!
- Easy, very affordable, were advanced shuttle to and from north end of is
- Get rid of all motorized vehicles on the island
- Get rid of burrs
- Golf cart rentals/or transportation
- Great job like it is
- Guided natural history/environment walks
- Guided tours via vehicle from south of the island to the north of the island
- Handicap accessibility
- Have a ferry stop at Plum Orchard, replace the hand dryers (too loud) at Sun Camp Campground. Disturbs the peace and quiet at campsites.
- Have an annual sale of horses. This would thin the herd, thicken the grass, increase the health of the herd, and provide income for you.
- Have trash cans at docks, have recycle bins at docks
- Have truck to take campers north to start camping/hiking so can hike north with one night stay
- Haven't spent enough time on the island to tell
- Heated water
- Historical literature pamphlets
- Horse and wildlife watching
- Horses look skinny
- Hot showers
- I have no idea on this
- I think bicycle guided tours would be great
- I think more people need to be made aware of what a magical place this is - I think more info about the every day lives and how people lived here. Kind of behind the scenes - both the Carnegies and employees.
- I would allow people to bring their own bicycles or lower the price of renting them, $18 is too high
- I would be careful to limit motorized activities that would detract from the natural part of the island. Not this trip, but I bring thirty 8th graders each May
- Ice cream for sale at docks
- If golf carts could be rented it would help those of us that are older and would like to visit all the island at our own pace.
- If you did a comprehensive ticket that included all the special events, tours, and ferry for one price (the Plum Orchard and Lands and Legacies Tours)
- Increased signage between beach and ferry pickup points
- Install solar array in campground for hot water similar to Everglades Flamingo Campground
- Invite groups to have gatherings for special group rates.
- Just offer tour to Plum Orchard.
- Keep it as is
- Keep it as natural and untouched as possible. This is why we would return.
- Keep it as simple as possible, as natural as can be
- Keep it more rugged with really isolated feeling
- Keep it natural and maintain the history of the island. That's what makes it unique.
- Keep it natural!
- Keep it natural. More trash pickup and have trash receptacles on beach trail access points. On Sunday have an earlier ferry (2:45 pm)
- Keep it the same
- Keep it the way it is. Larger museum with more history.
- Keep Plum Orchard open to visitors. Change if needed, but keep it always open
- Keep same number of people visiting
- Keep vehicle traffic to absolute minimum
- Keep wild areas pristine, give star gazing tour
- Keeping staff vehicles to a minimum while visitors are on island
- Kid sized bikes for rent
- Leave it alone
- Leave the island in its current state. No future development.
- Limit number of visitors; leave environment as is, minimize infrastructure (pure nature)
- Limit the number of visitors so it is not hard on the environment (don't add more ferry boat trips)
- Little more concern for seniors
- Lockers for one day guests
o Log lunches along some trails
o Longer ferry hours, more advertising (knowledge makes good decisions)
o Lower fees, more tour opportunities to north end of island
o Maintain strict limits on number of visitors per day and restrict private automobile travel on roads
o Maintain the historic and natural features that make this park unique
o Maintain wild areas
o Make booking campsites easier. Allow specific number of sites booked in one call. Allow group site to be booked. Just charge a fee for it, many empty sites but we had to fit big group into one site.

o Make it easier to reach someone by telephone to make reservations. Make reservations have the right date. Ours was at end of month and when we called to confirm we were told there was a glitch with the computer program that makes it have the wrong date on our confirmation for ferry. Also when we got on the island we were first night in backcountry and next two nights in Sea Camp. We were told there was no listing for us to be in Sea Camp the second and third nights. Luckily, we preferred to stay in Stafford.

o Make sure people visiting have opportunities to learn history of the island. Make shuttles available to get some of the areas.

o More access to north end
o More accommodating for handicapped
o More advertising; keep costs down; shuttle service to north end and back
o More and better identification and explanation of both historic and natural sights
o More bathrooms
o More building restoration, remove all but emergency gas powered vehicles
o More detailed maps, exhibit of wildlife on island
o More ferry options, trash cans, and more money put into restoring the ruins and other buildings
o More history, more island tours
o More identification of foundation structures. All ruins should be identified as to what their purpose was.

o More info available for private boaters
o More information for first time visitors (i.e. ‘push button’ recordings with descriptions of parts of island and what would be enjoyable to do there).

o More information signs to identify each site or ruin
o More land legacy tours
o More motorized tours
o More placard info at each of the sites
o More placards with info on sites.

o More pleasure craft docks.

o More prescribed burns (parts of the island seem very overgrown); more interpretive programs at Sea Camp/Dungeness

o More rocking chairs. Lockers for temp storage horse riding transportation food available.

o More shuttles (return)

o More signage to get from Dungeness to beach, golf carts for elderly

o More tour buses, some on south side

o More transportation options on island; i.e. golf carts to rent, Segways, etc.

o N/A

o Nature tours boat/land

o Need more areas along the trails, benches or remote picnic tables

o New bath house

o No additional development

o No changes

o No wake zone for anchorage.

o Not sure

o Nothing motorized, horse drawn wagon tours

o Perhaps a garbage can

o Perhaps inspiring the roads to the other part of the island for faster commute either by bicycle or shuttle so more time is spent learning about the history
- Place for visitor, ranger native sightings, brochures of flora and fauna on island and displays (photo), take care of horses. I know there are some legal issues.
- Plant more oak trees to return the island to its 1600/1700 condition
- Possibly a night ferry back to allow time for stargazing
- Protect existing structures! Plum Orchard Mansion. Find ways so more school children could experience it!
- Provide limited access to firewood to reduce damage to native vegetation from wood scavenging
- Provide rental cabins
- Put tram in so visitors can see more in one day had to choose between north side and south side
- Put up better trail signs to beach, etc.
- Quiet tram that would take people to Plum Orchard and on to north end non-periodically
- Ranger-led programs without van as transportation. Ecology tours/programs. Rentable cabins. Rideable horses. More ferry ride options-more than twice a day.
- Rent golf carts or some sort of small motorized transportation
- Replace showers
- Segway would be wonderful to get around the island
- Sell bug spray
- Shorter tour for people taking 11:45 ferry
- Show the film more!
- Shuttle to & from beach & camping area
- Shuttle to abandoned lighthouse
- Sightseeing
- Small retail shop for snacks, drinks, etc.
- Some place for people who find trash, to be able to dispose of it
- Status quo
- Storage lockers.
- Taste ferry
- That during a few times of the year, allow groups smaller than 10 to utilize the group campsites especially if no one else were coming in for the remainder of the week
- Tick control. I would not want to bring my children have to camp because of the tick infestation.
- Trash cans
- Trash cans. I would give out more info on what activities are on the island.
- Trashcans at dock area only would suffice. More signs during walk on road between stops.
- Try to keep it as natural as possible
- Use of bringing private bikes on the island
- Waste/trash bins
- We do not need many services. This is a remote and undeveloped island. It should remain that way! Maintain basic health and sanitation services and information about services to visitors.
- We had a hard time finding our way because the trails were not clearly marked. Took several. Also we tried calling the ranger station but couldn't get a hold of a human.
- We walked everywhere during our visit. Short as it was, it would have been nice to see more of the island by allowing us a shuttle to visit areas in the upper and mid sections of the island.
**Question 20.** Is there anything else you would like to tell us about your visit to Cumberland Island National Seashore?

- A scheduled shuttle should span the length of the island's main road. Need to make visitors more aware of services. Rented bikes were more expensive for seniors than the Land and Legacies Tour (6 hours). We rode our bikes to POM and it was closed. No notice of it closing at ranger station/visitor's center. Very bad! Note: $7.00 for tour would be more appropriate. We thoroughly enjoyed our visit to the island and will return if we are in the area again.
- Absolutely stunning. Enjoyed much, love the corp parks and how they are kept up.
- Add a gift shop to Sea Camp. Time waiting for ferry can translate to money. Information and guests who go away with something to share with others.
- Always a treat
- At the men's restroom near storage buildings the soap dispenser was broken. Soap was in the dispenser but would not dispense.
- Awesome! I love that the island and wildlife are protected.
- Beautiful and clean! Landscaping is great! Love the quiet atmosphere.
- Beautiful place - nice to see nature so beautifully preserved
- Beautiful views, great history and nature talk, with our ranger who guided us through Dungeness
- Blowers for hand drying in bathrooms are so loud they made my short stay there barely tolerable
- Can't wait to come back!
- Competent, friendly staff and volunteers. Clean bathroom. Liked the services provided to scouts and groups. What an opportunity. Couldn't find a second bathroom. Signage may be helpful.
- Could use more time on daily visit
- Cumberland is my favorite place on earth. Since 1983, I have introduced scores of people (8th graders, family, friends) to Cumberland at a minimum of 400 miles away. Please maintain the natural integrity of this most unique place.
- Enjoyed greatly - glad it has been kept undeveloped
- Enjoyed it
- Enjoyed it
- Enjoyed it! Great job for the junior ranger program.
- Enjoyed the experience and would return for a longer stay
- Enjoyed the visit, but have difficulty walking, had to cut day short. Wish I could have known about the transportation on south end of island, would be willing to pay for transportation between docks.
- Everything was great.
- Fabulous ranger tour and talk great to see an island not built up thus natural beauty - thank you national parks and sensible land owners
- for question #8 yes if shorter
- Friendly rangers, beautiful place
- Glad to be back
- Great and helpful personnel
- Great experience
- Great island, but already quite touristy; preserve it and reduce tourist stuff
- Great place, so grateful to have this wonderful resource
- Great ranger led hike at Dungeness with Rene Noe. Very intelligent and humorous, very informative.
- Had a wonderful time, beautiful, calm, and peaceful
- Have camped here on three prior occasions and loved it - beautiful, peaceful and so natural. The ferry ride over and back is an essential part of the Cumberland experience.
- I do love its wildness and understand the delicate balance of encouraging visitation and losing that magical quality. Personally, I love learning about its history, flora, fauna, and would love to see improvements in that area.
- I enjoyed the visit a lot, wish I had learned more about the wildlife and flora, rented a bike (maybe) and some to the northern part.
o I have heard about CI for so long and everything was even better than I'd been told. Keep up the good work!
o I love how natural it is
o I love this island and all its history. Keep up the great work!
o I love this place
o I loved the entire experience. The ranger led hike was very informative. Directions to the beach were very easy. I took lots of pictures of the wild horses, turkeys, alligator, and the beautiful scenery.
o I think you could put out these 8th graders to work picking up beach trash! Thanks for a great visit.
o I would have liked more detailed information regarding the backcountry campsites
o Install light sensors in all restrooms as are operating in the Sea Camp office restrooms. PS We had a great camping visit - need more Armadillos!
o It is a very beautiful, natural place to visit
o It is always wonderful in every way!
o It was beautiful - there are only a few places in the US bike this - no cars, limited people and all mature. Wonderful.
o It was beautiful!
o It was great!
o It was great! Thank you for this wonderful opportunity.
o It was wonderful and I thoroughly enjoyed myself
o It would be good to have an alternative way to tour the island - besides the tour (when full) and bicycles - for a shorter period of time than 6+ hours.
o It's a beautiful place. Restroom/shower facility at Stafford was a pleasant surprise.
o Just very enjoyable - and informative
o Keep it natural.
o Large groups (over 5 people) should display knowledge of Leave No Trace ethics.
o Liked wildlife and seclusion and the hiking trails
o Love it
o Love it!
o Love it!
o Love the island, would come more if booking not such a headache. Every year we book multiple sites and show up and have to share one.
o Love the island. Very glad it is available for everyone to visit.
o Loved it, very beautiful. Would like to stay.
o Loved it; wish I had seen wildlife other than horses
o Loved the island! It would be beneficial to have more available history either posted or written. Our main thought was that we wanted to know more about the Dungeness Ruins and their history, etc.
o Loved the place. Wish I could've seen armadillos, but understand they had a hard winter a while back.
o Loved the woodpeckers, horses, and turkeys
o Magical
o Make sure more trash cans available at picnic areas, provide vending or hot dog/hamburger stand
o Maybe being asked at the ticket counter, if you know about all possibilities e.g. bike hire etc.
o More ecology; info on sea level rise; issues relating to maintaining wild life.
o More transportation for couples (seniors) like (golf carts) so we can see the island
o N/A
o Need a hook on restroom door to hang pack up - don't like putting bags on restroom floors
o Nice to have water bottle holder on bikes
o Nice, tranquil. Bike offerings at both stops.
o No
o No
o No complaints. I had a great visit!
o No tours! Walk, bike - this is not Disneyland. Spotless bathrooms! Give that ranger a raise!
o No, was nice
o Nope
o Not aware of needing to sign up. Some info did not mentioned. Very nice. Like to come back for North End Tour.
o One of the best parks I have visited, and I have been to 250+ of them.
o Our tour hostess was very informative and helpful. (Ms. Johnston)
o People here are very nice
o Please install more resting beaches on the main road in the private lands, if they will allow you
o Please keep it as natural as possible. I enjoy spending the day here, very beautiful.
o Please keep up the good work, Cumberland Island is a treasure - the best of GA
o Question 19 is rude
o Really enjoyed
o Really enjoyed it!
o Really need to take tour before answer (#9a)
o Rene Noe is the best tour ranger.
o Rene Noe was amazing! She is knowledgeable and her tour was presented with eloquence. No doubt she loves this island heritage and wildlife - it was the best!
o Renee provides excellent information and has a wealth of knowledge
o Signage on trails needs improving
o Story telling by park rangers! Love it.
o Thank you
o Thank you for all you do to make places like Cumberland Island accessible to people while protecting it from overuse
o Thank you for the beauty and preservation!
o Thanks, enjoyed
o Thanks.
o The gift shop on the mainland should be open when the 4:45 ferry pulls in. It's a pain to have to pay and carry purchase all pay.
o The island is beautiful
o The natural beauty is amazing. Do not commercialize the park.
o The natural beauty is spectacular. I appreciated the lack of commercialism.
o The ruins were amazing. We were sad the hunt was happening so the north was inaccessible (we knew ahead of time). Guess that means we'll be visiting again!
o There should be some kind of expressway to get from one end to the other. So when you have only one day you would be able to see more.
o This is a beautiful pristine part of our wonderful country. Having this opportunity to visit is a pleasure I hope to be able to continue for many generations to come.
o This is a lovely place and should not be spoiled
o This place is amazing. We love it.
o Trash cans availability, vending machines, or snacks, drinks
o Very affable rangers
o Very beautiful and interesting
o Very enjoyable and informative
o Very enthusiastic rangers and park volunteers
o Very glad to find out not all national parks are overrun with people!
o Very nice - relaxing - good tour guide for Dungeness area - a beautiful day!
o Very nice island
o Very pretty!
o Very relaxing
o Very scenic and great nature/wildlife in natural surroundings. Thanks.
o Very unique place and so glad they've been able to share it with the public without ruining it
o Very well run. Clean and organized nicely.
o Water is great service. Maybe a few more spigots closer to campsites.
o We come south to Florida in the winter on our boat and this is a great stop - the rangers are helpful and great to talk to.
o We love seeing the wildlife from the turkeys and horses to the sea birds
- We love the empty beaches and the wild horses! Thank you for taking care of this lovely island.
- We love the nature, wildlife and quiet atmosphere
- We never saw the shuttle and would've loved it. I enjoyed the park very much.
- We really enjoyed our stay
- We thoroughly enjoyed our visit!
- We thoroughly enjoyed the entire day
- We were married here 15 years ago and love the island!
- We will be back - it is so beautiful!
- We'll be back
- With park entry fees already $24, too high. An inexpensive shuttle that ran on the hour would make it easier for guests to tour the island in full. We've only been able to see a small portion on foot. More ferry ruins to and from the island would be good too.
- Within the entire framework of our federal government, the national park service exceeds all of the branches of our extremely ineffective government branches and agencies. We love the national park service.
- Wonderful visit and place!
- Would like to see a shuttle service to north end of island
- Would love to return and take a tour next time. Very interested in the history of the island. I feel like we only were able to see a portion of what's here. Not everyone can walk to all the areas.
Appendix 2: The Questionnaire
19. a) Which category best represents your annual household income? Please mark (●) one.

☐ Less than $24,999    ○ $50,000-$74,999    ○ $150,000-$199,999

☐ $25,000-$34,999    ○ $75,000-$99,999    ○ $200,000 or more

☐ $35,000-$49,999    ○ $100,000-$149,999    ○ Do not wish to answer

b) How many people are in your household? ___________ Number of people

20. Is there anything else you would like to tell us about your visit to Cumberland Island National Seashore?

____________________________________________________________________________________

____________________________________________________________________________________

____________________________________________________________________________________

Thank you very much for your valuable input. Please return your completed questionnaire to the drop boxes by Sea Camp Ranger Station or on the ferry.

**United States Department of the Interior**

**NATIONAL PARK SERVICE**

Cumberland Island National Seashore

101 Wheeler Street

St. Marys, GA 31558

**Visitor Survey**

Fall 2012

Dear Park Visitor,

Thank you for participating in this study. We would like to hear about your experience at Cumberland Island National Seashore, and learn about your opinions of visitor services and facilities on the island. We are especially interested in your opinions about transportation services on the island. This information will be used in park transportation planning processes, which aim to improve the quality of services and provide better visitor experiences.

This questionnaire is only being given to a select number of visitors, so your participation is important and appreciated. It should only take about 10 minutes to complete. Please return your completed questionnaire to the drop boxes by the Sea Camp Ranger Station or on the ferry.

We appreciate your help.

Sincerely,

Fred Boyles
Superintendent

---

**Paperwork Reduction Act Statement:** This information will be used by the National Park Service as authorized by 16 U.S.C. 1a-7. We will use this information to evaluate the transportation services provided by Cumberland Island National Seashore. Your responses are voluntary and anonymous. A Federal agency may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB Control Number and expiration date. We estimate that it will take an average of 15 minutes to complete the questionnaire. You may send any comments concerning the burden estimates or any aspect of this information collection to Lena Le, NPS Visitor Services Project, College of Natural Resources, University of Idaho, P.O. Box 441139, Moscow, ID, 83844-1139; or lenale@uidaho.edu (email).

OMB No. 1024-0224
Expiration Date: 2014

*Instructions:* For questions that use circles (●), please mark your answer by filling in the circle with **black or blue ink**. Please do not use pencil.

Like this: ●  Not like this: X ☑ ☐
1. a) Prior to this visit, how did you obtain information to prepare for your visit to Cumberland Island National Seashore? Please mark (*) all that apply.
   - Did not obtain information prior to visit ➔ Go to Question 2
   - Previous visits
   - Live in the local area
   - Friends/relatives/word of mouth
   - Inquiry to park via phone, mail, or email
   - Cumberland Island National Seashore website: www.nps.gov/cuis
   - Other websites — which one(s)?
   - Ferry companies
   - Local businesses (hotels/motels, restaurants, etc.)
   - Maps/brochures
   - Newspaper/magazine articles
   - Other tourist sites (not National Park Service)
   - Social media (such as Facebook, Twitter, etc.)
   - State welcome center/visitors bureau/chamber of commerce
   - Television/radio programs/DVDs
   - Travel guides/tour books (such as AAA, etc.)
   - Other (Please specify)

   b) From the sources you used prior to this visit, did you receive the type of information about the park that you needed?
   - No ➔ Go to Question 2
   - Yes ➔ Go to Question 2

   c) If NO, what type of park information did you need that was not available? Please be specific.

2. Please list all the sites that you visited at Cumberland Island National Seashore on this visit. Please mark (*) all that apply.
   - Park visitor center
   - Ice House Museum
   - Plum Orchard Mansion
   - First African American Church
   - Other (please be specific)
   - Beach
   - Dungeness Ruins
   - Stafford Cemetery
   - Wharf Ruins
