U.S. Department of the Interior
National Park Service
Natural Resource Stewardship and Science
Fort Collins, Colorado
The National Park Service, Natural Resource Stewardship and Science office in Fort Collins, Colorado, publishes a range of reports that address natural resource topics. These reports are of interest and applicability to a broad audience in the National Park Service and others in natural resource management, including scientists, conservation and environmental constituencies, and the public.

The Natural Resource Report Series is used to disseminate high-priority, current natural resource management information with managerial application. The series targets a general, diverse audience, and may contain NPS policy considerations or address sensitive issues of management applicability.

All manuscripts in the series receive the appropriate level of peer review to ensure that the information is scientifically credible, technically accurate, appropriately written for the intended audience, and designed and published in a professional manner.

Data in this report were collected and analyzed using methods based on established, peer-reviewed protocols and were analyzed and interpreted within the guidelines of the protocols.

Views, statements, findings, conclusions, recommendations, and data in this report do not necessarily reflect views and policies of the National Park Service, U.S. Department of the Interior. Mention of trade names or commercial products does not constitute endorsement or recommendation for use by the U.S. Government.

This report is available from the Social Science Division (http://www.nature.nps.gov/socialscience/index.cfm) and the Natural Resource Publications Management website (http://www.nature.nps.gov/publications/nrpm/). To receive this report in a format optimized for screen readers, please email irma@nps.gov.

This report and other reports by the Visitor Services Project (VSP) are available from the VSP website (http://www.psu.uidaho.edu/c5/vsp/vsp-reports/) or by contacting the VSP office at (208) 885-2585.

Executive Summary

This report profiles a systematic random sample of visitors to the Outdoor Recreation Information Center (ORIC) at the REI store in Seattle, WA during summer 2012 and winter 2013. A total of 729 on-site ORIC visitors were approached and invited to participate in the survey, of which 599 completed the questionnaire, resulting in a response rate of 82%. A total of 167 phone-in ORIC users were invited to participate in the survey, of which 87 responded, for a response rate of 52%. Post-trip surveys were administered to 177 respondents, of whom 67 completed a questionnaire, resulting in a response rate of 38%.

PRE-TRIP SURVEY RESULTS SUMMARY

<table>
<thead>
<tr>
<th>Group size and type – onsite</th>
<th>Forty-five percent of on-site respondents approached the ORIC desk alone and 34% were with family. Forty-three percent were in groups of two people.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Group size and type – phone-in</td>
<td>Seventy-three percent of respondents called ORIC to obtain information for themselves and 14% called on behalf of family.</td>
</tr>
<tr>
<td>State of residence</td>
<td>Seventy-eight percent of respondents were from Washington state, of which 60% were from Seattle.</td>
</tr>
<tr>
<td>Gender</td>
<td>Sixty-two percent of respondents were male and 38% were female. There was no significant difference in gender between on-site and phone-in respondents.</td>
</tr>
<tr>
<td>Age, ethnicity, race, educational level, and preferred language</td>
<td>Forty percent of respondents were ages 18-35 years. The average age of on-site respondents was 42 years and the average for phone-in respondents was 47 years. Three percent were Hispanic or Latino. Ninety-three percent of respondents were White and 7% were Asian. Ninety-eight percent of respondents preferred to use English.</td>
</tr>
<tr>
<td>Travel plans</td>
<td>Forty-seven percent of respondents planned to take a trip on the day of or on the day after contacting ORIC and 23% planned to travel within a week of contacting ORIC.</td>
</tr>
<tr>
<td>Reason for visiting REI – on-site</td>
<td>Fifty-six percent of respondents who completed an on-site questionnaire indicated that they came into REI store for shopping and obtaining information, 24% came in only to shop, and 20% came in only to obtain information.</td>
</tr>
<tr>
<td>Reason for calling ORIC – phone-in</td>
<td>Forty-two percent of respondents who completed the phone-in survey indicated that long travel distance was the reason why they called in rather than visited ORIC in person. Thirteen percent did not want to wait in line at the store.</td>
</tr>
<tr>
<td>Awareness of ORIC</td>
<td>Fifty-four percent of respondents indicated that they have used ORIC in the past, 19% did not know about ORIC’s existence until coming in to shop at REI on the day of the survey, and 9% learned about ORIC through the Internet.</td>
</tr>
</tbody>
</table>
## Executive Summary (continued)

<table>
<thead>
<tr>
<th>Section</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Motivation for using ORIC</strong></td>
<td>Fifty-seven percent of respondents indicated the main motivation for using ORIC was to obtain additional information. Nineteen percent preferred to obtain help from ORIC’s staff over other information sources.</td>
</tr>
<tr>
<td><strong>Recreational pass awareness and options</strong></td>
<td>Sixty-five percent of respondents were aware of the different recreational pass options in Washington state. Forty-five percent of respondents contacted ORIC staff to inquire about recreational pass options, of which, 37% inquired about the Annual Northwest Forest Pass.</td>
</tr>
<tr>
<td><strong>Improved level of understanding regarding passes</strong></td>
<td>Sixty-six percent of respondents indicated that they now have a better understanding about pass options, while 18% indicated that they did not obtain any new information about the passes.</td>
</tr>
<tr>
<td><strong>Type of information provided</strong></td>
<td>Forty-five percent of respondents were seeking information about backpacking opportunities and 33% were seeking information about day hiking opportunities.</td>
</tr>
<tr>
<td><strong>Information sources used prior to contacting ORIC</strong></td>
<td>Seventy-nine percent of respondents indicated that they sought information about recreational areas from other sources prior to contacting ORIC.</td>
</tr>
<tr>
<td><strong>Waiting time in line at ORIC</strong></td>
<td>Seventy-eight percent of respondents did not wait in line. Of those who indicated that there was a waiting line when they first attempted to approach a ranger, 85% chose to wait in line, and most (91%) waited no longer than five minutes.</td>
</tr>
<tr>
<td><strong>Waiting time on the phone</strong></td>
<td>Eighty-one percent of respondents who completed the phone-in survey indicated that they were able to speak to a staff person on the first call.</td>
</tr>
<tr>
<td><strong>Length of contact with ranger</strong></td>
<td>Fifty-one percent of respondents had contact with a staff person of up to five minutes. On average, phone-in respondents spent a significantly longer amount of time speaking to a staff person at 9.5 minutes compared to 7.7 minutes for on-site contacts.</td>
</tr>
<tr>
<td><strong>Interest in informational programs at ORIC</strong></td>
<td>Forty-eight percent of respondents were interested in attending programs at ORIC.</td>
</tr>
</tbody>
</table>

### POST-TRIP SURVEY RESULT SUMMARY

<table>
<thead>
<tr>
<th>Section</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Influence of ORIC in decision making</strong></td>
<td>Fifty-seven percent of respondents indicated that they had already decided on their destination, but the staff helped with the details of the visit. Twenty percent asked staff to help them decide where to go.</td>
</tr>
<tr>
<td><strong>Group characteristics</strong></td>
<td>Fifty percent of groups traveled with family and 27% traveled with friends. Forty-five percent traveled in groups of two and 27% traveled in groups of four or more.</td>
</tr>
</tbody>
</table>
## Executive Summary (continued)

### Length of trip
- Sixty-seven percent of respondents went on a multiple-day trip and 33% took a day trip only.

### Type of activity
- Fifty-two percent of respondents participated in day hiking and 42% took a backpacking trip.

### Likelihood of using ORIC again
- Eighty percent of respondents indicated that they would likely use ORIC again.

About the Authors

Yen Le, Ph.D., is the Director of the Visitor Services Project, Park Studies Unit and assistant professor with the Department of Conservation Social Sciences, University of Idaho.
Introduction

This report describes the results of a Recreational User study at the Outdoor Recreation Information Center (ORIC) at the Recreation Equipment Inc. (REI) in Seattle, Washington at the request of Klondike Gold National Historical Park – Seattle. ORIC is an interagency ranger station providing information on public land recreation opportunities in Washington State. ORIC is a unique partnership between the National Park Service, U.S. Forest Service, Washington State Parks, REI, and Discover Your Northwest.

The survey was conducted during the summer season 2012 and winter season 2013. Recreation users who visited the REI store in person were given the choice of either completing the survey via an iPad or a paper questionnaire during summer 2012. Recreation users who visited the store in winter 2013 completed the survey via a paper questionnaire only. Recreation users who phoned the ORIC for information were offered a chance to complete the survey online.

After completing the pre-trip survey, either on-site or online, recreation users were given a chance to participate in a post-trip survey. The post-trip survey was offered online only. The survey was conducted by ORIC staff with supervision from the Park Studies Unit (PSU) at the University of Idaho.

Organization of the Report

This report is organized into three sections.

Section 1: Methods
This section discusses the procedures, limitations, and special conditions that may affect the study results.

Section 2: Results
This section provides a summary for each question in the questionnaire and includes visitor comments to open-ended questions. The presentation of the results of this study does not follow the order of questions in the questionnaire.

Section 3: Appendices
Appendix 1. The Questionnaire. A copy of the questionnaire distributed to respondents.
Presentation of the Results

Results are represented in the form of graphs (see Example 1), scatter plots, pie charts, tables, and text.

Key

1. The figure title describes the graph’s information.

2. Listed above the graph, the “N” shows the number of respondents responding to the question. If “N” is less than 30, “CAUTION!” is shown on the graph to indicate the results may be unreliable.

* appears when the total percentages do not equal 100 due to rounding.

** appears when total percentages do not equal 100 because respondents could select more than one answer choice.

3. Vertical information describes the response categories.

4. Horizontal information shows the number or proportion of responses in each category.

5. In most graphs, percentages provide additional information.

Example 1

Figure 14. Number of visits to the park in past 12 months
Methods

Survey Design and Procedures

Sample size and sampling plan

All VSP questionnaires follow design principles outlined in Don A. Dillman’s book *Mail and Internet Surveys: The Tailored Design Method* (2007). Using this method, the sample size was calculated based on ORIC’s visitation statistics of previous years.

Due to the nature of the study, eligible participants only included recreation users who visited ORIC in person or called the ranger station for information, and were at least 18 years of age. If a group approached the ranger desk and if there were more than one adult in the group we used the next birthday method to randomize survey participants. Upon the completion of the conversation with the ranger, selected individuals were offered a chance to complete a questionnaire on-site in the store or complete one online (if they called). Every participant was asked three questions and gender was noted for checking non-response bias:

1. Is it your first time using ORIC?
2. What is your zip code or name of country (if not U.S.)?
3. What is your age?

The information was recorded on a survey log. Reason for refusing to participate in the survey was also noted when appropriate. The surveys were distributed over two periods from June 7 to August 19, 2012 for the summer season and from January 5 to February 21, 2013 for the winter season.

Questionnaire design

The Outdoor Recreation Information Center questionnaire was developed through conference calls between ORIC staff and VSP staff to design and prioritize questions. Several iterations of the questionnaires were circulated among park staff and planning specialists. The final version of the questionnaire incorporated all comments from several editing rounds. A pilot of the survey instrument was conducted using a group of graduate students at the University of Idaho. The pilot group helped to refine the questions and improve clarity. Finally, the questionnaire was reviewed and approved by Office of Management and Budget (OMB).

The questionnaire included questions that are specific to different aspects of the services provided at ORIC and questions that help to establish demographics of recreation users. Many questions ask respondents to choose answers from a list of responses, often with an open-ended option, while others were completely open-ended. The questionnaire was designed in booklet form of an appropriate size that would fit the lock box.
Survey procedure

The survey was conducted on-site by Outdoor Recreation Information Center and Klondike Gold Rush National Historical Park - Seattle Unit staff. Upon completion of the conversation with the rangers, respondents were greeted, briefly introduced to the purpose of the study, and asked to participate. If a group was encountered, they were asked which member (at least 18 years old) had the next birthday. The individual with the next birthday was selected to complete the questionnaire for the group. Since the questionnaire was completed on-site, follow-up was not necessary.

If a person called the ranger station for information instead of coming in to the REI store in person, the ranger offered them an opportunity to complete the questionnaire online after the call. If the person agreed to participate in the survey, the ranger noted the name and email address. An email with the link to the survey was sent to the participant, and follow-up reminder emails were sent one week and two weeks after the initial contact.

Upon the completion of the pre-trip survey, the participants were then asked if they would be willing to fill out another survey after their travel. The post-trip survey was only offered to people who planned to take the trip within two weeks. The post-trip survey was only offered in web-based format with two follow-up email reminders.

Data analysis

For the paper version of the questionnaire, visitor responses were entered twice and double-key validation was performed on numeric and short text responses. The remaining checkbox (bubble) variables were read by optical mark recognition (OMR) software. For the online surveys, visitor responses were sent directly to the database. Responses to open-ended questions for paper and online versions were categorized and summarized prior to data analysis.

Numeric data were processed and statistics were calculated using Statistical Analysis Software® (SAS) and IBM SPSS Statistics®.

Limitations

As with all surveys, this study has limitations that should be considered when interpreting the results.

1. This was a self-administered survey. Respondents completed the questionnaire after their contact with ORIC staff, which may have resulted in poor recall. Thus, it is not possible to know whether their responses reflected actual behavior.

2. Respondents were given more than one option to complete the survey, which may have affected the response rate.

3. Caution is advised when interpreting any data with a sample size of less than 30, as the results may be unreliable. When the sample size is less than 30, the word “CAUTION!” is included in the graph, figure, table, or text.

4. Occasionally, there may be inconsistencies in the results. Inconsistencies arise from missing data or incorrect answers (due to misunderstood directions, carelessness, or poor recall of information). Therefore, refer to both the percentage and N (number of individuals or respondents) when interpreting the results.
Checking non-response bias

Table 1 shows the response rates for each survey. Because fewer than 100% of participants completed the surveys, some part of the population may be underrepresented, which may cause some biases in the results. This bias is often referred to as non-response bias.

Table 1. Response rates

<table>
<thead>
<tr>
<th>Survey</th>
<th>Number contacted</th>
<th>Completed</th>
<th>Response rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>On-site</td>
<td>729</td>
<td>599 (200 via iPad)</td>

<td>87</td>
<td>52%</td>
</tr>
<tr>
<td>Post trip</td>
<td>177</td>
<td>67</td>
<td>38%</td>
</tr>
</tbody>
</table>

In order to determine the effect of non-response bias, three variables were used to determine the differences between respondents and non-respondents: age, gender, and place of residence. The non-hypotheses were that respondents and non-respondents were not significantly different from each other while comparing the three variables. An independent t-test was conducted to compare average age. Chi-square tests were conducted to compare respondents’ gender and place of residence. The non-hypothesis would be rejected when the p-value is less than 0.05. Tables 2 - 4 show the results of non-response bias tests. There was not enough information recorded for the phone-in participants to perform non-response bias tests. The results for on-site and post-trip surveys show that respondents and non-respondents were not significantly different except for gender in post trip survey. It appeared that female participants were more responsive to post-trip surveys than male participants.

Results of pre-trip survey

Reason for coming to the REI store

Question 1 (on-site)
What was the primary reason you came into the REI store today?

Results
- 56% of respondents who completed the on-site questionnaire indicated that they came into the REI store for shopping and obtaining information (see Figure 1a).
- 24% came only to shop.
- 20% came only to obtain information.

Figure 1a. Reason for coming into the REI store

Primary reason for calling ORIC

Question 1 (phone-in)
What was your primary reason for calling the Ranger Information Station at the Seattle REI today, instead of visiting it in person?

Results
- 42% of respondents who completed the phone-in survey indicated that long travel distance was the reason why they phoned-in rather than visiting ORIC in person (see Figure 1b).
- 13% did not want to wait in line at the store.
- “Other” reasons (41%) are listed in Table 5.

Awareness of ORIC

Question 2
How did you find out about the Ranger Information Station at the Seattle REI?

Results
- 54% of respondents indicated that they had used ORIC in the past (see Figure 2).
- 19% did not know ORIC existed until coming in to shop at REI on the day of the survey.
- 11% learned about ORIC through friends/relatives/word of mouth.
- 9% learned about ORIC through Internet websites which were:
  - America the Beautiful
  - Crystal Mtn. page
  - Federal sites
  - Google search
  - Mt. Rainier website
  - Mt. Baker-Snoqualmie National Forest
  - North Cascade park website
  - Northwest Forest Pass website
  - nps.gov
  - recreation.gov
  - REI
  - rei.com
  - Snow Parks website
  - USDA
  - USFS
  - WTA (Washington Trails Association)
- 1% learned about ORIC through staff at a recreational area which were:
  - All camp/hike areas
  - National forest
  - North Cascades National Park

Figure 2. Awareness of ORIC

- "Other" sources of information (5%) were:
  - Called REI and was transferred
  - First thing popped up on Google search
  - Other customers at licensing venue
  - Saw it while shopping at REI in the past
  - Transfer from a staff member at REI
  - Used to work at REI
  - Washington state guidebook produced by AAA

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
Motivation for using ORIC

**Question 3**

*(on-site)* What was your motivation for approaching the Ranger Station?

*(phone-in)* What was your motivation for calling the Ranger Information Station?

**Results**

- 57% of respondents indicated their main motivation for using ORIC was to obtain additional information (see Figure 3).
- 19% preferred to obtain help from the staff at ORIC over other information sources.
- Other motivations (15%) were:
  - Convenience while being in the store
  - Going to Mt. Rainier for the first time tomorrow
  - Having trouble finding information I needed online or in topo maps and couldn’t get an answer at USFS numbers
  - Humans are a good sources of information
  - Just want to say hello
  - Need information about trail conditions
  - Need to purchase a pass
  - Need week-end information services (other places closed)
  - Needed information about where to go
  - Needed information REI employees couldn’t provide
  - Planning a trip and wanted to talk about specific details with the rangers
  - Referred by REI employee and I got great information
  - So much easier to talk to someone
  - Traveling through and thought it might help
  - Wanted to talk to rangers about our plan

![Figure 3. Motivation for using ORIC](image-url)

N=645 respondents

- Needed additional information: 57%
- Prefer to obtain their help: 19%
- Didn’t know ORIC existed until today: 4%
- Wanted to confirm information: 3%
- Needed help sorting out information: 2%
- Other: 15%

*total percentages do not equal 100 due to rounding

**total percentages do not equal 100 because visitors could select more than one answer
Contacting ORIC prior to visiting in person

**Question 4 (on-site only)**
Did you call the Ranger Station at REI prior to visiting in person?

**Results**
- 5% of respondents who completed the on-site survey indicated that they called ORIC prior to visiting in person (see Figure 4).

![Figure 4. Respondents who called ORIC prior to visiting in person](image)

Recreational areas

**Question 4 (phone-in) and Question 5 (on-site)**
Which recreational area were you seeking information about today?

**Results**
- 8% of respondents sought information about a specific recreational area (see Figure 5).
- The recreational areas for which respondents sought information are shown in Table 6.

![Figure 5. Respondents who sought information about a specific recreational area](image)

Recreational pass options

**Question 5a (phone-in) and Question 6a (on-site)**
Prior to talking to Ranger Station staff, were you aware of different recreational pass options in Washington state?

**Results**
- 65% of respondents were aware of the different recreational pass options in Washington state (see Figure 6).

![Figure 6. Awareness of different recreational pass options](image)

Inquiry about recreational pass options

**Question 5b (phone-in) and Question 6b (on-site)**
Did you inquire about Washington state recreational pass options at the Ranger Station today?

**Results**
- 45% of respondents contacted ORIC staff to inquire about recreational pass options (see Figure 7).

![Figure 7. Respondents' who inquired about recreational pass options](image)

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
Recreational pass options

Question 5c (phone-in) and Question 6c (on-site)

If YES, which recreational pass(es) did you inquire about?

Results

- As shown in Figure 8, the most common recreational pass options inquired about included:
  - 37% Annual Northwest Forest Pass
  - 25% Annual Discover Pass
  - 22% America the Beautiful Pass
  - 21% Daily Northwest Forest Pass

![Figure 8. Recreational pass options](chart)

Level of understanding

Question 5d (phone-in) and Question 6d (on-site)

How would you rate your level of understanding about recreational passes in Washington state after contacting Ranger Station staff?

Results

- 66% of respondents indicated that they had a better understanding about pass options (see Figure 9).
- 18% indicated that they did not obtain any new information about the passes.

![Figure 9. Level of understanding](chart)

*total percentages do not equal 100 due to rounding

**total percentages do not equal 100 because visitors could select more than one answer
Type of information provided

Question 6 (phone-in) and Question 8 (on-site)
What kind of information about the recreational area(s) were you seeking today?

Results

- 45% of respondents sought information about backpacking opportunities (see Figure 10).
- 33% were seeking information about day hiking opportunities.
- The safety advice (7%) respondents sought was:
  - Avalanche/snow/road conditions
  - Bear safety
  - Bugs
  - Fire concerns/restrictions
  - Food safety on trails
  - Tides
  - Water porability
  - Weather

- The rules and regulatory information (6%) respondents sought was:
  - Bear canister/bear caution
  - Blueberry picking
  - Camping/camping on trails/campsites/winter camping
  - Fires
  - Overlapped of pass benefits
  - Park pass
  - Permit
  - Reservations
  - WA Discover Pass requirements

- The water activities information (2%) respondents sought was:
  - Fishing
  - Kayaking
  - Water sources

Figure 10. Type of information about recreational area

- “Other” types of information (4%) sought was:
  - Accommodations
  - Best entrance/road/access
  - Bicycling
  - Camping/Horse camp/RV
  - Horse trails
  - Passes/Parking permit
  - Salmon run
  - Seeking scenic adventure for guest from Norway
  - Sno-park
  - Wildflowers

**total percentages do not equal 100 because visitors could select more than one answer
Information sources used prior to contacting ORIC

Question 7 (phone-in) question 9 (on-site)
Prior to contacting staff at the Ranger Information Station at the Seattle REI, which other sources did you use to learn about the information in the previous question?

Results
• 79% of respondents indicated that they sought information about recreational areas from other sources prior to contacting ORIC (see Figure 11).
• As shown in Figure 12, for those who used other sources of information prior to contacting ORIC, the most common sources used included:
  - 36% General search on the Internet
  - 34% Books/magazines/printed materials
  - 28% Site-specific search on the Internet
• Other site-specific search on the Internet (28%) were:
  - cascadeclimbers.com
  - fs.usda.gov
  - General Google search
  - greentrailsmaps.com
  - Hanford Reach
  - noaa.gov
  - nps.gov
  - nwhikers.net
  - parks.wa.gov
  - Permit site
  - recreation.gov
  - turns-all-year.com
  - U.S. Forest Service
  - wsdot.gov
  - wta.org
• Outdoor clubs (4%) were:
  - Acme
  - Baealps
  - Montree
  - Northwest hikers
  - Skagit Audubon
  - The Mountaineers
  - Washington Trail Association

Quality of information provided by ORIC staff

Question 8 (phone-in) Question 7 (on-site)
On a scale from 1-5, please rate the quality of the trip-planning services provided by Ranger Station staff at the Seattle REI?

Note: The respondents rated different aspects on a semantic differential scale, which only specifies two end points and does not have scale point descriptors in between.

Table 7. Ratings of ORIC trip-planning services

Waiting time – on-site contact

Question 10a
Was there a waiting line when you approached the Ranger Station at the Seattle REI?

Results
- 22% of respondents indicated there was a waiting line to talk to a ranger (see Figure 13).

Question 10b
If YES, did you leave and return to the Ranger Station later?

Results
- Of those who indicated that there was a waiting line when they first attempted to approach a ranger, 15% of respondents left then returned later (see Figure 14).
  - 85% chose to wait in line.

Question 10c
Once you were in line, approximately how long did you have to wait

Results
- For those who had to wait in line to talk to a ranger, most (91%) waited no longer than five minutes (see Figure 15).
  - The minimum wait time was one minute.
  - The maximum wait time was 15 minutes.
  - The average wait time was 3.4 minutes.
Waiting time – phone-in contact

Question 9a
When you first called the Ranger Information Station at the Seattle REI, were you able to speak to a staff person?

Results
- 81% of respondents who completed the phone-in survey indicated that they were able to speak to a staff person on the first call (see Figure 16).

Question 9b
If NO, which of the following did you do?

Results – Interpret with CAUTION!
- Figure 17 shows actions respondents took if they were unable to reach a staff person on the first call.
- Less than 30 respondents answered this question, therefore data is not reliable.

Question 9c
From the time you first called the Ranger Information Station at Seattle REI, approximately how long did it take before you were able to speak to a staff person?

Results – Interpret with CAUTION!
- A total of six people answered this question, which is too few to provide any statistically significant results.

Two people called back the day after
One person waited 1 hour
Two people waited 2 hours
One person waited 4 hours

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
**Length of contact**

**Question 10 (phone-in) and Question 11 (on-site)**

Approximately how much time did you spend talking with a staff person?

**Results**

- 51% of respondents had contact with a staff person for up to five minutes (see Figure 18).

- Table 8 shows the comparison of the length of contact between on-site and phone-in respondents.

- Although the on-site respondents have a wider range, on average, phone-in respondents spent significantly longer amounts of time speaking to a staff person, at 9.5 minutes, compared to 7.7 minutes for on-site respondents (p-value=0.002).

**Table 8. Comparison of contact time length**

Respondent demographics

Respondent age

Question 11 (phone-in) and Question 12 (on-site)

What is your age?

Results

- The minimum age requirement for participating in the survey was 18 years of age.
- 18% of respondents were between 26 to 30 years old (see Figure 19).
- Table 9 shows the comparison between phone-in and on-site respondents.
- On-site respondents varied greatly in age range. However, on average, phone-in respondents were significantly older (p-value = 0.004).

**total percentages do not equal 100 because visitors could select more than one answer
Respondent gender

Question 12 (phone-in) and Question 16 (on-site)
What is your gender?

Results
- 62% of respondents were male and 38% were female (see Figure 20).
- Chi-square test was used to determine the differences between on-site and phone-in respondents. As shown in Table 10, no significant difference was found (p-value = 0.103).
- This indicates that males and females had no preferences for contacting ORIC via phone or in person.

Table 10. Comparison of respondents' gender

Preferred language

Question 16 (phone-in) and Question 18 (on-site)
Which language(s) do you prefer to use?

Results
- 98% of respondents preferred to use English (see Figure 23).
- Other languages (1%) were:
  - Chinese
  - Dutch
  - French
  - German
  - Korean
  - Norwegian
  - Spanish
  - Tamil

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
Group type

Question 14 (on-site)
Which type of group are you with today?

Results
- 45% of on-site respondents came to ORIC alone (see Figure 24).
- 34% were with family.
- “Other” group types (1%) were:
  - Scout
  - Hiking group

![On-site respondent group type](image)

Figure 24. On-site respondent group type

Question 14 (phone-in)
a) Did you call the Ranger Information Station to obtain information on behalf of a group?
b) If YES, for which type of group did you call to obtain information?

Results
- 73% of respondents called ORIC to obtain information for themselves (see Figure 25).
- 14% called on behalf of the family.
- “Other” group type (5%) was:
  - Scout

![Phone-in respondent group type](image)

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
Group size – on-site

Question 15a
How many people are in your party today?

Results
43% of respondents had two people in their party (see Figure 26).
- 36% came alone.

Figure 26. On-site respondent group size

Question 15b
How many people in your party are under 18?

Results
- 17% of respondents had people under 18 years of age in their group (see Figure 27).
- 9% had one person under 18 years of age.
- 6% had two people under 18 years of age.

Figure 27. On-site groups with children under 18 years of age

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
**Group size – phone-in**

**Question 14c**
If YES (called for a group), how many people are in the group?

**Results**
- 73% called to obtain information for themselves, indicating one person in the party (see Figure 2).
- 16% called to obtain information for a group of three or more people.

![Figure 28. Phone-in respondent group size](image)

**Question 14d**
If YES, how many people in the group are under 18?

**Results – Interpret with CAUTION!**
- 37% of respondents indicated that there were children under 18 in their group (see Figure 29).
- Less than 30 respondents answered this question, therefore, data is not reliable.

![Figure 29. Phone-in respondents with children under 18 years of age](image)

**total percentages do not equal 100 because visitors could select more than one answer
Travel plans

Question 17 (phone-in) and Question 19 (on-site)

When do you expect to go on your trip?

Results
- 47% of respondents planned to take a trip on the day of or on the day after contacting ORIC (see Figure 30).
- 23% planned to travel within a week of contacting ORIC.

Figure 30. Travel plans

Interest in informational programs at ORIC

Question 18a (phone-in) and Question 20a (on-site)

Would you be interested in attending informational programs organized by Ranger Station staff at the Seattle REI?

Results
- 48% of respondents were interested in attending ranger programs at ORIC (see Figure 31).
- Table 13 shows the topics in which respondents were interested.

Figure 31. Respondents interested in ranger program

Most valuable information received from ORIC

Question 19 (phone-in) and Question 21 (on-site)

What is the most valuable information you received today from the ranger at ORIC?

Results

- 48% of respondents (N=329) answered this question.
- Table 14 shows the information that respondents felt was most valuable from their visit to ORIC. The transcribed open-ended comments can be found in the Visitor Comments section.

Topics for ORIC website

Question 23
Currently, ORIC (Outdoor Recreation Information Center) is considering creating a website. In your opinion, what are the three most important topics that should be included on the ORIC website?

Results
- 61% of respondents (N=416) answered this question.
- Table 15 shows a summary of respondents’ suggestions for topics to include on the ORIC website. The transcribed open-ended comments can be found in the Visitor Comments section.

Level of ORIC influence in decision-making

Question 3
Did the information you received at the Ranger Station influence your decision to visit the area?

Results
- 57% of respondents indicated that they had already decided on a destination, but the staff helped with the details of the visit (see Figure 32).
- 20% asked staff to help decide where to go.

![Figure 32. Level of rangers’ influence on travel plan](image)

Length of trip

Question 4.
How much time did you spend there?

Results
- 67% of respondents went on a multiple-day trip (see Figure 33).
- For those who took multiple-day trips, 37% took a four or more day trip (see Figure 34).
- The longest trip reported was 28 days.

![Figure 33. Trip length](image)

![Figure 34. Number of days among multiple-day trips](image)

Activities

Question 5

What recreational activities did you engage in?

Results

- 52% of respondent participated in day hiking (see Figure 35).
- 42% took a backpacking trip.
- Winter/snow activities (22%) were:
  - Cross country skiing
  - Glacier climbing
  - Ice walk on glacier
  - Snowshoeing
- Water activities (3%) were:
  - Boating
  - Kayaking
  - Swimming
- "Other" activities (7%) were:
  - Bird watching
  - Motorcycling
  - Photography
  - Sightseeing
  - Tree/plant identification
  - Wildflowers viewing

Overall quality of information provided

**Question 6a**
Overall please rate the information you received at the Ranger Station at the Seattle REI prior to this trip.

Note: Respondents were asked to rate the quality of information provided in terms of accuracy and thoroughness on a semantic differential scale. The scale only specifies the two end points and does not have scale descriptors in between. Since the questionnaire was completed online, the respondents could use the scale as a sliding ruler.

**Results**
- Table 18 shows respondents’ rating of overall quality of information provided.

Inaccurate/incomplete/desired information

Question 6
b) If there were any inaccuracies, what were they?
c) If the information was incomplete, what was missing?
d) Is there any information that you wish you’d had before this trip?
e) If YES, please specify.

Results – Interpret with CAUTION!
• Table 19 shows respondents' comments regarding information that they felt was inaccurate or incomplete and information desired prior to trip.

<td><strong>INFORMATION THAT WAS INCOMPLETE</strong></td>
</tr>
<tr>
<td>I think the rangers might have assumed we knew more than we did.</td>
</tr>
<tr>
<td>The ranger at the park gave us excellent and specific advice of specific trails based on our circumstances and trail conditions. The REI Ranger was very general.</td>
</tr>
<tr>
<td>The ranger was a bit short with me and didn't seem to have/want to spend a lot of time with me. However, he was so clear on where he thought I should go that I followed my gut (proven by past experience) and planned my trip according to his advice. I would have liked to stay and ask more questions/discuss day hike options, not just campground locations.</td>
</tr>
<tr>
<td>There was only one handout available for snowshoe trips in the area, it was not very detailed in terms of what to expect from the hikes, and I have a feeling the list was not very comprehensive.</td>
</tr>
<tr>
<td>We arrived at Lake Easton State Park in our own vehicle because we did not take the REI ski bus which had scheduled a cross-country all-day ski class for 10 February 2013 only to find out from the Lake Easton Park Ranger that the park has been closed for a month. The Ranger stated that the work went to &quot;all sources&quot; to inform them. The REI bus arrives and they are not aware of this situation. Thus we had to go to another nearby park. Ultimately REI and the Rangers stationed at Seattle REI were not aware, but apparently The Mountaineers of Seattle were aware. So where did the communication break down?</td>
</tr>
<tr>
<td>We mentioned an interest in taking our son sledding, but it turned out that the sledding area was far up the trail. We would have started off differently (by taking the sled with us when we set out on snowshoes, rather than planning to return to it after snowshoeing).</td>
</tr>
<tr>
<td>We were not aware that the ranger station at the North Cascades closed at 6 p.m.</td>
</tr>

Interest in additional services

Question 7
What additional services would you have liked the Ranger Information Station to provide?

Results – Interpret with CAUTION!
• Not enough respondents answered this question to provide reliable results (see Figure 36).
• Subjects for recreational classes (28%) were:
  Backpacking how-to
  How to rig a bear line
  How to stay on trails
• Suggestions for additional handouts/materials (22%) were:
  Hiking trails
  Suggested backpacking routes
• Passes that are not currently available (22%) that participants were interested in purchasing were:
  Campsite reservation
  Canadian National Park Pass
  Discover Pass
  Pass for all areas in Washington including federal, state, and county
  Sno-park passes
• Suggestions for additional hours (17%) were:
  Earlier hours on the weekend
  9 a.m. to 9 p.m.
• Other services (22%) were:
  Bear canisters
  Campsite reservations
  Online chat to answer questions

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
Group characteristics

Question 9
What type of group were you with?

Results
• 50% of respondents traveled with family (see figure 37).
• 27% traveled with friends.
• “Other” type of group (3%) was: Scout

Figure 37. Group type

Question 8a
How many people were in your group on this trip?

Results
• 45% of respondents reported they traveled in groups of two people (see Figure 38).
• 27% had four or more people in their group.

Figure 38. Group size

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
Question 8b
How many children (under 18) were in your group on this trip?

Results
- 25% of respondents had children under 18 years of age in their group (see Figure 39).
- 18% had one person under 18 years of age.

Figure 39. Respondents with children under 18 years of age

Likelihood of using ORIC to plan another trip

Question 10
If you were to plan another trip in the area, would you return to the Ranger Station at the Seattle REI for information?

Results
- 80% of respondents indicated that they would likely use ORIC to plan another trip (see Figure 40).

Figure 40. Likelihood of using ORIC to plan another trip

*total percentages do not equal 100 due to rounding
**total percentages do not equal 100 because visitors could select more than one answer
**Additional comments from post-trip survey**

**Question 12**
Is there anything else you want to tell us about your experience with the Ranger Station at the Seattle REI?

**Results – Interpret with CAUTION!**
- 43% of respondents (N=29) answered this question.
- Table 20 lists additional comments from post-trip survey participants. The transcribed open-ended comments can be found in the Visitor Comments section.

Visitor Comments

This section contains respondents’ comments to open-ended questions.

Question 19 (phone-in) and Question 21 (on-site)
What is the most valuable information you received today from the ranger at ORIC?

- A better understanding of what passes to use and where, and some back country condition status.
- A map the ranger printed out from the web
- Aasguard Pass should not be attempted
- About trail
- Access pass verification & KGRNHP contact information
- Advice about a backpacking route suitable for us
- Advice about good day hikes, weather conditions
- Advice on what are good options with children
- Age 62 senior pass
- All of it
- All of the information was valuable, especially the recommendations on which trails to choose for my particular interests and needs
- All the free opportunities I have to enjoy the USA
- All the options for different backpacking trips
- An age appropriate play area for my son
- Annual pass
- Area and travel
- Assistance with state and USFS lands, rules, trails and recreation options in areas where I’m not familiar; I know North Cascades NP very well
- Availability of campsites and the location
- Available camping locations and suggested area of Mt. Rainier to hike
- Avalanche conditions
- Avalanche handout
- Backpacking destinations, permit to information
- Backpacking recommendation; map finding; discussion of different route options
- Backpacking trail suggestions. Very good information.
- Backup plans
- Best place for me to go
- Best places to go snowshoeing, parking, other events happening that might affect parking/access
- Best routes
- Black bears only, don't worry about bear spray
- Blasting hours
- Bought forest pass
- Bought pass
- Campground recommendations
- Campsites
- Campground location band availability
- Campground maps and park maps
- Camping details
- Camping in rain (tips)
- Camping information
- Camping information and travel times between parks and if it was possible to hit both parks with our time allowed
- Camping information
- Camping options
- Camping options and general idea about how busy the area is
- Camping sites
- Camping spots
- Campsite availability
- Campsite information
- Campsite information, permit process
- Campsite registration
- Car camping information
- Cascade Volcano pass
- Choices of where to backpack
- Clarification on types of sno-park passes
- Clarified pass options, recommended good snowshoeing trail for us
- Clear idea of what to expect, very realistic view (time, distance)
- Clear information on passes.
- Conditions
- Conditions at several trailheads
- Conditions and openings of tunnels
- Confirm no snow on trail, pass cost
- Confirmation of campfire regulations
- Confirmation of water source, low impact places to set up camp advice about which lakes to visit on Necklace Valley trip
- Confirmed tidal logistics along the Olympic coastline. Confirmed permit requirements. Validated research on hikes and offered advice on logistics.
- Confirming that the areas I wanted to go to are beautiful and accessible this time of year. Pass information.
- Considerations on where to go and possibilities of backpack area
- Contact information for ranger stations nearest to out of state destination
- Contact with ranger from Baker Lake
- Correct phone numbers to call for the most update information
- Cost of pass/hiking information /trail map
- Cost of sno-park pass
- Current access road to trailhead is closed
- Current condition at North Cascades NP
- Current conditions at Sunrise and Paradise
- Current information on avalanche risk
- Current weather conditions at the Enchantments
- Day hike, camp site information
- Day hiking and snow conditions
- Describing the many different passes
- Details of sno-park pass
- Details on hiking routes, water availability and places to park car, snow levels, river crossings
- Difference between various parks
- Differences in camping in national park vs. national forest
- Different areas different passes are available
- Different kind of passes
- Different passes available
- Different types of passes
- Directions
- Directions
- Directions and pass information
- Discover pass information
- Discovery pass
- Do I need a permit and the answer is yes I can camp and yes a permit is needed but easy to get locally
- Easy hike for little kid
- Every little bit was valuable and great to know before we go into the woods
Everything - suggested place to hike, camp, weather conditions, cabin information - very friendly and informational. Thanks!

Everything! Got lots of ideas and he was very nice and helpful

Exactly what I called for - snow/avalanche and safety conditions

Facility condition and area interests

Fact that there was still snow on Mt. Rainier trails

Family day trip. Ranger station was awesome. So helpful.

Family friendly backpacking trails

Favorite trails of his.

Fees and bear safety

Fees at Mt. Rainier, about climbing the mountain

Fire regulations

First hand insight into the parks we were asking about

Forest service pass, and trail condition information

Found out the difference between different recreational passes.

Gear information

General camping information on camp Muir

General clarification that I couldn't get from website

General conditions, safety on snowshoe routes

General information on options for backpacking close to Seattle and available maps

General overview of area we will be camping

General trip information

Good selection of trailhead options

Good suggestions on loop hikes

Got my forest pass

Great deal on senior pass

Guide to travels and weather conditions

Having tag for senior pass, maps and descriptions of hikes at Mt. Baker

He gave me great ideas where to go

Help

Help with my hike

How to get reservations

How to obtain permits

How to use national parks pass

How to use your pass.

Human contact and advise
o I found out I could park my car at the trailhead for the length of time I needed
o I got my pass!
o I learned where to go, camp, and how long everything would take and recommended backup plans
o I may not need to buy a pass today.
o I only came in for information on good car camping spots for families with young kids and I got that in spades. He let me know I might need a trail parking pass, so I was happy to buy one.

I was looking for a place to purchase the America The Beautiful Pass for an upcoming road trip. The ranger called my first destination to find out if they sold or accepted the pass there and they did not so he called me back and gave me the information that my second destination did sell and accept the pass. I was extremely surprised that he made the phone call for me instead of just giving me the number. WOW!!

o I was told about a couple of specific hikes
o I will be able to enter National Forests in Oregon using my Golden Age Passport. That is the reason I called. I probably could have gotten more information but I did not realize what I was calling. I thought I was calling a National Forest office.

o Idea for a day trip
o Ideas of what hikes may be snow free in August
o Ideas on where to go camping / hiking in the area I wanted to go. Also information on the passes I need (which I didn't know about).

o Ideas to hike
o Information about discover pass, weather conditions
o Information about good hiking/camping sites
o Information about hikes and passes
o Information on desert hikes
o Information on Olympic
o Information on passes
o Information on permits, hiking locations
o Information about a specific hike
o Information about ascending the Enchantments and reminder of car and hiking passes needed for North Cascades
o Information about guided snowshoe hikes and pass information
o Information about new types of trail passes
o Information about obstacles (headlands, rivers) along the coast
o Information about passes.

o Information about snow levels in specific areas of the park.
o Information about the hike that I want to go on
o Information on day hikes near Seattle
o Information on snow conditions and equipment to purchase
o Information on the regulations about taking pet goats on NF trails in the area
o Interagency pass
o Is the pass open, obtained a map
o It’s a great way to get specific detailed recommendations for camping either with one child (backpacking) or car camping with the whole family. These guys are fantastic.

o Just some basic hikes in the area
o Just the information I received on state/federal passes was very helpful
o Knowing that they are here and very accessible to the urban public
o Latest on passes available
o Laws of dispersed camping
o Learning about the area, since I’ll be moving here
o Local knowledge of difficulty
o Local weather conditions/safety, recommendations for future trip
o Location and type of winter recreation areas.

o Location of cross country
o Location of sites
- Locations relative to current conditions
- Logistics - parking/passes
- Lots of different options for travel.

- Site specifics (trail update, etc.)
- Sno-park passes
- Sno-park permit only 1 car
- Snow and trail information
- Snow conditions in cascades
- Snow conditions
- Snow conditions
- Snow conditions. What trails are snow free and the length I am looking for
- Snow free hikes in June
- Snow level and conditions and parking pass
- Snow level, trip planning
- Snow levels, when trails will be hikable
- Sno-park/groomed stick - pass
- Snow pass access
- Snow shoeing/hiking book.
- Specific camping/hiking option that I never knew about before
- Specific information on my trip
- Specific locations to camp/backpack
- Specific trail information concerning finding fields of wildflowers
- Specific trail/camping details
- Specific trails to hike for my ability. He also e-mailed me potential guides for fly-fishing in the Olympic Peninsula.
- Specifics about particular hiking routes
- Spots to go backpacking and campground information
- Senior pass, bears, government regulations
- Suggested hikes for isolation
- Suggested routes
- Suggestions for hikes based on scenery/beauty with emphasis on which were now accessible re: snow conditions
- Suggestions for loop backpacking trips
- Suggestions on sledding areas, where to sled for free, and when to arrive at busy snow parks to have a snowballs chance in hell of getting a parking spot
- That camp sites are on a first comes first serves basis
- That dispersed camping can occur anywhere. Gave good general stewardship information.
- That I can drink the water from Baker Lake
- That I could hike from Stuart Lake to the upper enchantments basin and still spend the night in the Stuart trail zone. I already had a permit before calling.
- That I could obtain a senior pass for $10
- That I did not need a forest pass for my planned hike
- That I needed reservations and I thought I didn't
- That I needed to pay $22 at Lake Toreson
- That the access road I need is open
- That the hike is too long for one day. There is snow on trail and the road is closed at the other end.
- That the passes are unnecessarily complex!
- That there are 4' of snow at rainy pass.
- That there is some snow on trail where I'm going, but it was vague
- That they are there
- That they don't have very much campground information
That to hike to the Enchantments between June 15 - October 15 I need to go to the Leavenworth Ranger Station and enter in the lotto.

That we have well educated, dedicated individuals who love our national park and resources.

The area I am thinking to go on hiking in Olympic National Park.

The areas covered by the different types of sno-park passes - I got a map.

The differences between the different passes offered.

The explanation of how backcountry camping works in the Olympics and trail conditions.

The likelihood I have of finding a campsite at a campground that has sites on a first come, first serve basis only, at the time and on the date I am planning to go camping. Also, the ranger was able to explain the reason, and he knew about road conditions and the price of campsites.

The location of a new area of public land with which I was otherwise unfamiliar.

The personalness they add to the information. Its not just maps and fee tables but they can help you find what you are looking for.

The phone number for a park in the area. It was exactly what I needed.

The phone number for Metsker maps since the maps I am looking for are not here in any format. No quad maps, forest service maps, or computer printed maps.

The ranger - to the best of his knowledge - clarified coverage of different park and recreational area passes. The knowledge was very useful and I was grateful to get it. The ranger was uncertain if the Discover Pass would cover rock climbing parking at Frenchman's Coulee. It just goes to show you how complicated it is to know what pass covers what.

The ranger informed me that the hike we wanted to do was still covered in snow. He then provided a great alternative trail with details on where to get the backcountry permits and other details, like the fact that we wouldn't need a bear canister. Very helpful!

The road is open to the trailhead. I need a NW Forest Pass and may not be able to get one at the trailhead. So, I went to get one today since I am leaving very early in the morning.

The snow level.

They clarified the very confusing information about passes that exists in WA state that I could not discern on the state's website (despite the fact that I have a PhD and am a competent researcher for 30 years).

Trail closures.

Tip to try Taylor Creek Trail to other falls.

Tips about when and where to snowshoe as well as where to park.

Tips in best backpacking, Olympics.

To buy the green trails map of the area plus information on permits/passes.
- Trail conditions, permit information, best loop or trails for views to consider
- Trail conditions, route planning; snow levels/new trail openings
- Trail conditions, amount of snow, weather patterns
- Trail conditions/features
- Trail conditions/permit information, alternative trails/other safety information
- Trail conditions and alternative options
- Trail details, permit information
- Trail general information /conditions
- Trail information
- Trail information
- Trail information
- Trail information
- Trail information
- Trail information and pass information best cross country places to go
- Trail information, trail pass information
- Trail information.
- Trail locations
- Trail recommendations
- Trail recommendations - several options to choose from when planning a backpacking trip
- Trail specific information, conditions, reservation rules
- Trail suggestions
- Trail/road conditions
- Trailhead for our trip
- Transportation information
- Travel arrangements and destination
- Travel planning
- Travel times and information on area conditions
- Trip advice
- Trip information and alt routes
- Trip planning
- Trip planning for Devil's loop trail, specifically camping regulations
- Trip planning information camping/fishing
- Trip recommendations
- Trip tips
- Two maps, phone number, web for respective campsites
- Understand of area I want to hike
- Understanding the pass system.
- Up to date information about snow conditions on the trails we are considering for our next hikes
- Updated road conditions on FR 99 and FR 25. Ed was extremely helpful and explained the current conditions there and what to expect. He also called around on my behalf to get the most current information and called me back with that information. I was very surprised and appreciative of the high level of service I received from Ed.
- Updates on previously closed/washed out roads (Cascade River Road, Dosewallips)
- Updates re: Discover Pass
- Use of compass, uses/quality of different maps
- Use of pass, trail conditions
- Very - we were planning on camping in a hailstorm before coming here
- Very current conditions of my destination and road closures
- Very good recommendations
- Very helpful information about the passes and camping on forest land
- Very helpful to have the ranger station at REI, saved me from having to make phone calls or visit the local ranger station to get more information
- We can reference backcountry permits and sites
- Weather
- Weather and conditions of the trail
- Weather and personal account of hikes
- Weather and route information
- Weather and rules and regulations
- Weather and trail conditions
- Weather at hike
- Weather at ONP and recommended trails
- Weather conditions, trail suggestions
- Weather conditions/mudslides
- Weather information and ranger districts
- Weather, maps, trail condition
- What I need to do for my backpacking trip in terms of passes
- What I needed
- What is required for various areas (passes)
- What the backcountry conditions are currently (will be backpacking in mid June)
- What trail to go on
- What trails had snow and not accessible
- When to go
- Where all the certain types of passes take you. Otherwise great trail recommendations.
- Where and how I can camp in the forest along a highway
- Where to camp
- Where to camp
- Where to camp. Ranger provided a map!
- Where to get the maps on line that I wanted I live 150 miles from the closest REI store
- Where to go
- Where to hike and which pass I need
- Where to hike this month and passes needed to go
- Where to park at Shi Shi
- Where to ski this July
- Which areas would be closed either due to races or tree fall
- Which parks to visit on our trip. What the annual pass covers.
- Which pass to get, sense of trail we are headed to
- Which passes were required
- Which trails
- Who to contact about Oregon snow levels
- Wilderness permit fees and information
- Wilderness restrictions
- Wildflower opportunities
- Winter access to sno-parks
- Winter activity guide
- With so many different "passes" and permits at state and federal levels, it is confusing to me about which one's are needed
Question 23 (pre-trip survey)
Currently, ORIC (Outdoor Recreation Information Center) is considering creating a website. In your opinion, what are the three most important topics that should be included on the ORIC website?

- 10 best hikes in the area
- Access pass information
- Access pass information
- Activity recommendations
- Activities
- Activities
- Activities at parks
- Avalanche conditions
- Backcountry safety and proper wilderness ethics
- Backcountry access information
- Backcountry conditions
- Backcountry/avalanche conditions (links?)
- Backpacking information
- Backpacking information
- Backpacking information
- Backpacking information
- Backpacking information
- Backpacking loops
- Bear safety information
- Best hikes for specific interests
- Best things to see/do in the area
- Biking
- Boating
- Boots
- Burn bans
- Buy passes via internet
- Campground availability
- Campground availability
- Campground availability
- Campground contact information

- Hiking/backpacking trail information, trail condition reports, safety information
- Hiking/camping/backpacking options, road/trail conditions, safety considerations and tips/practices on how to be a good trail user
- Hooray! Campsite availability.
- Horse camping, ability to make reservations, rules
- Hours, passes available and required, information available
- How to purchase passes
I do lots of backpacking and day hiking, and mainly use wta.org for latest trip reports, trail conditions, and descriptions. There isn't a whole lot that site doesn't cover well, other than permit requirements. I assume you already plan to have a section covering that, which I would use.

I had no idea where to look to see the weather conditions for the trail I wanted to take. It didn't occur to me that it might be snowed under still (it's July), but I had been wondering how cold it might get at night so we could pack accordingly (thus my stop at the information desk). Sorry. I have no other suggestions and my kids are waiting.

I like in person

I think this might be duplicative. Just refer people to the WTA website.

I would want dates when trails are open

Ideas for things to do, amount of use an area gets, how to's

Information about current conditions at specific trails; weather/avalanche danger; how many people are using specific trails

Information on parks, current weather, trail condition

Information on the distance between the passes and where you need them

Information attainable/services provided at that location, passes needed for certain types of activity, etc.

Information for day hikers in Washington navigation using GPS

Information for visitors on what is required in terms of forest passes, current road conditions, updated regularly, FAQs to answer questions we didn't know we had

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on all passes/licenses/permits

Information on camping and trails in the area, perhaps by category: "best of" quiet campgrounds, campgrounds that are good for children, ones for large groups. Also, opportunities to buy forest service passes and other passes on the website. Links to weather information, etc.

Information on recreational passes, trip preparation, safety information

Information on where the passes are accepted and sold and what each pass does

Information regarding all hiking opportunities in the area (DNR also)

Interactive maps, rules and regulations for each area, flora and fauna, current conditions

Interesting places with points of interest, best ways to travel (guided, etc.)

It would be nice to have a live help chat. That's the main reason I come - to ask specific questions. Route information/photos, weather, trip reports (similar to WTA).

Laws to be aware of rules

Links to all public lands, current conditions or links to current conditions, featured destinations that are time-specific (like, right now the wildflowers are great at X, or the skiing and snow shoeing are great at Y, or the fall colors are peaking this weekend at Z).

Links to conditions, services that they provide, information on permits

Links to national parks

Links to WTA, maps and trail information, up to date trail Information, how to get there
Listing trails/loops in various regions/areas with difficulty rankings and customer/visitor review, feedback (so I can read what recent visitors have to say)

List of regulations about passes and permits, links to wilderness weather sites, links to trail conditions.

Local area outdoor access and clubs

Local conditions both land and roads - pull maps off website at kiosk scale

Local hikes

Local hikes, local flora, hidden gems of hikes

Locations - where are good locations (trails/maintenance)

Logistics, what kinds of passes/permits, required for national forest vs. national parks

Lyme disease

Map of recreational activities - Nordic skiing, climbing, biking

Map that outlines ranger station district and list of phone numbers and websites

Maps

Maps, current conditions on trails, safety on trail, what to pack, etc.

Maps and trail closures and a page that tells me what kind of condition the roads to trails are like. Is it OK for a car or do you need a 4 wheel drive to get to a trailhead

Maps - interactive and weather

Maps and difference between national forest & national parks

Maps including how to get there! (fly/drive/hike), travel tips, accommodation tips

Maps of areas, and directions, photos, recreation pass information and details, and online purchase of them

Maps of the parks, security advice, weather conditions

Maps of trails that are printable where ranger stations are permits required

Maps, easy family outings, closure dates

Maps, parks

Maps, permit information, hints/tips with weather

Maps, permits, and maps.

Maps, real time data (fire risk, road conditions), hike profiles - elevation/distance

Maps, safety, weather/tide tables

Maps, weather information

Maps, weather, snow level

Maps/fees

Maps/trail suggestions, safety tips, links to trail conditions

Mileages

More information about recreational areas

More specific road conditions

Most recent trail conditions not more than 1-day-old, a good local ranger number nearest the mountain I am hiking, is a pass required?

N/A

National park information, hiking trails and weather conditions

National park maps

Navigation from GED location to GED location

Necessary permits, trip planning information and reviews

No opinion

None

Question 24 (pre-trip survey)
Is there anything else that you would like to tell us about your experience at the Ranger Station at the Seattle REI?

- A good service for REI to have
- A very useful service for hiking, backpacking, and camping
- Absolutely fabulous
- All good
- All good
- All tools at hand to answer all my questions
- Always a great job
- Always a pleasure
- Always helpful
- Always helpful to speak with a person instead of a computer
- Always very helpful
- Amazing
- Appreciate the ranger information here at this location
- Asking people for their email addresses to get a 2nd attempt at them completing the survey would be a good choice. Also offering a small incentive to completing the survey would help get more people to complete the survey. Very knowledgeable and helpful staff.
- Awesome - lot of great information
- Called the store to make sure Ranger Station was still here. Love the convenience
- Could not find the number on the REI website
- Dave is great! Very helpful and friendly!
- David was extremely helpful and very knowledgeable about the area I was interested in exploring. Very friendly.
- Ed Robinson was great. He is very knowledgeable about WA state trails. Went above and beyond to give me additional place numbers. I didn't have to check on road closure. Excellent customer service.
- Enjoyable! Thank you.
- Every time it is excellent. The rangers really know their stuff.
- Excellent experience
- Excellent help
- Excellent job. Keep it up!
- Excellent service! Thank you very much!
- Excellent to have resource
- Excellent work - they are informative, patient, and eager to help even though I am sure they are asked the same questions repeatedly. Excellent personal service. Thank you.
- Fabulous experience
- Fantastic resource and location. I received outstanding customer service.
- Fast, efficient, courteous, and accurate. Thank you.
- Friendly and knowledgeable staff
- Friendly service and very knowledgeable
- Friendly service and very knowledgeable
- Given that other ranger stations were closed, this was my only alternative in getting information for my hike. The ranger was very helpful and knowledgeable.
- Glad your here. Like getting passes here. Sometimes get good trail information. Love the National Park System!!
- Good
- Good idea
- Good resource in this location
- Good staff, knowledgeable on the ground, experienced
- Great
- Great attitude
- Great experience as always
- Great experience, very knowledgeable staff
Great help
Great help
Great job
Great job overall
Great job! Keep it up.
Great overall experience. Very helpful and friendly.
Great place for current information. We have trail books but of course they do not have current information and that is important when contemplating between several hikes.
Great place! Thank you.
Great resource
Great resource
Great resource
Great resource
Great service
Great service
Great service
Great service
Great service. Makes it really easy for me to pick a new destination.
Great stuff
Great! Thanks!
Great to have the information before heading to the parks
Great to have this resource at REI
Great to have this service in REI
Great, friendly informative experience
Great
Great
Great. Love having it available.
He was very helpful and did not try to rush me off the phone. He gave me all the time I needed to ask the questions I wanted to ask and made sure I had all the information I needed to get what I needed from the web page he gave me.
He was very knowledgeable
Helpful and nice people
Helpful, however an accompanying website would be better
I always have a positive experience. I appreciate this service and use it frequently!
I am always impressed with the professionalism and broad knowledge of each ranger I have spoken with over the years. I have never had a negative experience. Not only have they guided me toward exceptional outdoor experiences, they have been gracious and made the time very worthwhile. I admire and appreciate the ORIC staff.
I am from Tacoma and this is not a convenient stop for me. I couldn't find a phone number to call--of course I was at the REI website.
I am very please with the staff and the information given to me. Thank you information staff.
I appreciate its availability
I appreciated the prompt information and the time he spent with me
I find it very refreshing and convenient speaking to a ranger. Often reminded of special conditions that one would not get researching alone.
I have always gotten excellent service here. The rangers are knowledgeable about more than just this region, which I find helpful as I plan to use the national parks in other parts of the U.S.
I have come by multiple times while shopping at REI. The staff is always extremely kind i.e. helpful and they look so healthy! Best promotion and encouragement to go out in nature.
I have used it in the past for hiking/backpacking information - always friendly and helpful
I love it.
I love it! Everybody is extremely friendly and always helpful. Thank you.
I love Ranger Don! My friend and I always consult him before our annual backpacking trip.
I love the ranger station at REI! It is so convenient to be able to get information and shop at the same time. Thank you for this wonderful service!
- I love these rangers! Always very helpful!
- I need to know what they do here, what's available
- I really like having this service at REI
- I spoke with Bob and he was great. Exceeded my expectations!!
- I think I have told you several times already. (I am already an REI member.)
- I think it's a wonderful service and would like to see it kept up or expanded! Thank you!!!
- I thought he was especially kind and helpful. He was happy to answer all my questions. This has not been the case in the past. Last year a ranger told me I couldn't get a campsite this late and wasn't interested in helping me with the options.
- I use the ranger station at REI quite frequently and think they provide an invaluable service and love that it is so convenient
- I want your job
- I was aware of Ranger David answering questions and his respect for other USFS personnel and customers. Further volunteer Earl Collins and I shared stories of camping and hiking in Lake Tahoe, Silver Lake Campgrounds. Ravenna was delightful and asked questions about my favorite places to visit. Overall a very pleasant experience and will motivate me to use our USFS parks, lands, and resources.
- I wish I could have gotten my permits here rather than have to backtrack in the park. My trip March 2, but you had to punch my annual pass for February. You should let the pass for the next month if within 2 weeks.
- I wish the rangers had maps to give out
- I work across the street and use it pretty frequently - great resource in the neighborhood.
- I'd struggled with maps and websites all morning, and even though I had trouble getting through on the phone they immediately knew the answer to my question and had a great recommendation that I'm looking forward to pursuing.
- I've called the ORIC on several occasions. On each occasion, I've obtained no help.
- Twelve years ago my son and I paddled 2200 miles from Lake Bennett to St. Michael on the Bering Sea. Our route included the entire trip made by the Klondikers from Skagway across the Chilkoot Trail to Dawson, Yukon Territory, Canada. Following our trip our family visited the Klondike Gold Rush National Historic Park in Seattle. Sadly, both rangers had never visited Skagway nor hiked the Chilkoot Trail, etc.
- My biggest gripe is that rangers need to go into the backcountry, so they may serve as information sources. Otherwise, cut staff levels so that the remaining staff may speak from experience.
- In the past, rangers have been very helpful to us
- It has always been a very useful resource
- It has always been very helpful. We have spoken with them in person on several occasions.
- It is a great place to have a ranger station because it is handy to be able to find out any information you need before you outing.
- It is needed, please keep funding
- It is very convenient
- It is very nice to know REI is providing this service. Extremely helpful to be able to walk up to the ranger and ask about outdoor activities right at the store so I can make my purchase more relevant to what I'll be doing.
- It seems that the Ranger Station could use another person to help with transactions and information giving. I didn't have to wait long today, but I have been through here when the line was incredibly long and that discouraged me from seeing the rangers.
- It was a good resource to have available and met my needs
- It was awesome and very, very convenient
- It was excellent speaking to a knowledgeable person, to be able to ask questions and examine maps together. Thanks!
- It was fine! Thanks for being in the store. It is very helpful!
- It was good
- It was good. Thanks.
- It was great
- It was helpful
o It was positive
o It was pretty short & simple
o It was splendid! You guys are great!
o It was Tony the Tiger great
o It was very goo.
o It was very helpful! Very courteous.
o It was wonderful
o It would have been nice to know you guys have been here for a while before now. Could you put an announcement in the REI ads, i.e. newspaper, online site, etc.

o It's a great resource. Please keep it available.

o It's always a pleasure to visit this station in Seattle
o It's always excellent
o It's awesome. You the one!

o Just that having the desk at REI is wonderful
o Keep it available
o Keep it here, please
o Keep the area nice, detailed information
o Keep up the good work
o Keep working like that
o Knowledgeable friendly staff
o Lines are too long
o Lived in Seattle for 14 years, had not seen rangers before today
o Lots of helpful, nice representatives on the floor and two great rangers. Thanks!

o Love it - I tell others to come all the time
o Love it here, have a great weekend
o Love it
o Love it! Live had the best service, found the coolest hikes for six years or so.

o Love these guys and gals and all the work they do
o Loved it
o More advertisement that this location exists
o Need hats
o Need one for access to all land
o Nice
o Nice surprise to find them here
o No, but thank you and I look forward to traveling through the national parks

o No, but thank you for your help

o No, but actually I didn't call but, instead, went there in person. I live an hour north of Seattle and just happened to be in Seattle that day so I could stop by. Since that is not usually the case, I would like very much to get online information (all in one place/site).

o No, it was very helpful
o No, thanks
o No, they were very helpful
o No, very good experience
o No. Thank you.

o Nope, it was great
o Nope, you were great
o Nope. Very helpful service!

o ORIC rangers at REI are awesome
o Overall, good experience. Ranger knew his stuff, very friendly.

o Pleasant ranger with good customer service. However, I am not sure the information I received was accurate. I was told I could camp anywhere in national park boundaries. When I got to Lake Serene hike the information there told me camping was prohibited (in the current report information on the kiosk). I still am not sure if I was or was not allowed to camp there. If I was not, the ranger should have told me that there is exceptions to the camping rule or asked where I was going to camp.
Please keep it going

Please make a combined pass! We are happy to buy both but it's a hassle to have both. Also limiting the Discover Pass to two cars should be changed to be like to Forest Pass.

Pretty awesome on a consistent basis! Awesome to have, it makes me proud of our parks!

Ranger = awesome

Ranger Michael was very professional and personable

Ranger spent a lot of time with us

Ranger was extremely helpful and friendly. Offered a lot of information.

Ranger was helpful, even though he did not know area well, he was quick to access and provide materials

Ranger was very patient and friendly and knowledgeable

Rangers very knowledgeable

Service was great

So easy to get information

So glad it exists as it prevents me from having to call several different rangers - it's all in one place

So glad it was here

So kind and helpful

Staff very personable - thanks

Staff was friendly and helpful

Super helpful

Surprised by it's existence, very pleased with the experience

Survey is a little too long

Thank you for having this station here. It is an invaluable source for information

Thank you for the help

Thank you for your help

Thank you so much to Ed

Thank you very much

Thank you

Thank you

Thank You

Thank you! Very friendly and helpful.

Thanks

Thanks

Thanks a lot! I feel more informed and less stressed.

Thanks for being here

Thanks for being here

Thanks for being there

Thanks for your help

Thanks so much for being available to all of us

Thanks

Thanks

Thanks

Thanks

Thanks

Thanks

Thanks

That the staff was incredibly helpful and knowledgeable. A wonderful resource that Seattle is very fortunate to have!

The person I spoke with was very helpful. I felt like he listened to my questions and made sure I had all the information I asked for.

The ranger I spoke with was fantastic. Very friendly, but efficient. Knowledgeable. I really appreciated being able to talk to someone to confirm the information I found online (which was a bit confusing). I wish I'd gotten his name so I can list it here. He was super!

The ranger seemed to be very busy and not interested in exploring options with me
o The Ranger Station in the store is brilliant and the rangers working here were perfect for customer service
o The rangers were great! Thank you!
o The staff at ORIC stations especially Michael, Don, and David are the best
o The staff was extremely friendly and I appreciated all their help
o The two rangers with whom I spoke on two different occasions over the telephone, David and Ed, were extremely knowledgeable, helpful and polite
o These folks were great – thanks
o They are a great resource. Please keep them.
o They are always great. The best thing about having the flagship REI in Seattle. It would be much harder to figure out trip plans without this ranger station. I love it and I come here to chat with the ranger before every trip
o They are always helpful and friendly, with good suggestions for hikes
o They are always helpful
o They are great live, used them for years and depend on them. Thanks.
o They are very knowledgeable and helpful
o They can read upside-down maps
o They were awesome
o They were very friendly and helpful
o They were very helpful
o They were very helpful and friendly
o They were very helpful as all rangers usually are
o This is a great idea
o This is a huge benefit to REI customers and even the general public, so people know where they can come find a ranger to speak to before they head out to the woods. Lots of good information that is not just helpful, but good for safety.
o Totally awesome
o Unexpected. Very nice!
o Very convenient and timely for me
o Very friendly
o Very friendly
o Very friendly
o Very friendly and helpful
o Very friendly and helpful
o Very friendly and helpful, thanks
o Very friendly and informative
o Very friendly and knowledgeable
o Very friendly and knowledgeable
o Very friendly, looked up information he didn't know
o Very friendly, very helpful. Thanks!
o Very friendly
o Very glad it is here
o Very glad they are always here! I stop in regularly throughout the year for questions - they are always very helpful!
o Very handy. Great idea to have it located here in a busy recreation store.
o Very helpful
o Very helpful
o Very helpful
o Very helpful
o Very helpful
o Very helpful
o Very helpful
o Very helpful
o Very helpful and fast service
o Very helpful and knowledgeable
o Very helpful rangers for a lot of other questions about federal parks in the NW region.
o Very helpful staff, thanks
- Very helpful to have a central urban location for information
- Very helpful
- Very helpful. Survey long.
- Very knowledgeable great experience
- Very nice and friendly. Good questions but this survey was a bit too lengthy!
- Very nice and helpful
- Very nice people
- Very nice staff
- Very nice. Helpful.
- Very polite, awesome, that it's right in downtown
- Very professional staff; very valuable service to the community; I'm glad that REI supports this role and that the NPS/USFS recognizes the value of this location for reaching visitors before they head into the back/front country.
- Very, very friendly, wonderful
- We received excellent service
- We stop here before every trip for the always helpful advice
- We support Washington State Forest Service
- We're glad they're here
- Will be calling again
- Wonderful!! Keep the rangers around, please.
- Yes - put a clear sign in the map section alerting people to your ranger station, because people (like me) think about maps and gear and easily forget permits
- Yes. He provided me with the phone number to call the ranger station in the area where I'll be visiting in order to make sure I receive a precise answer to my question when he was unable to answer it with complete certainty. I appreciated that.
- You are great for us. Anything we ask; you know and also give addition/better suggestions.
- You guys are nice
- You guys are swell
- You have a great staff - very courteous and helpful
Question 12 (post-trip survey)
Is there anything else you want to tell us about your experience with the Ranger Station at the Seattle REI? (Open-ended)

- Both rangers were very pleasant and helpful
- Both staff were very nice and helpful
- Fix survey so that it is easier to tap a 5 star
- Great friendly people - well-staffed
- I didn't actually go to REI to visit them - I was shopping for my trip and realized they were there, so it was a nice surprise
- I have always had a positive experience at the Ranger Station at REI. They have always been most helpful. On this particular visit, the person went out of his way to make sure I had the maps to the various sno-parks that I was interested in.
- I heart rangers
- I love it! Everyone is so helpful, knowledgeable, thorough, courteous, etc. And it is so convenient to be able to stop by when I'm already in the store stocking up for a trip. Please don't ever close this station! It is a great resource! Nice work, everyone!
- I love the Ranger Station at REI, thank you for your great service
- I telephoned a number in some travel literature about national forests. I did not know that I was calling the Ranger Station at the Seattle REI. The man who answered was helpful.
- I was really happy it was there. We went straight from the airport to REI to plan the backpacking trip, and the ranger was able to tell me right away that the trail I really wanted to take was still snowed under because of the heavy winter snowfall and cooler summer weather. If he hadn't told me, I probably wouldn't have found out until we stopped at the ranger station to get a backcountry pass on the day we planned to go. We would have been really disappointed, my daughter would have cried, and there wasn't a good alternative in that park, so we'd have been out of luck. I had been looking forward to doing a backpacking trip since last year, so my disappointment would have been huge. We almost always go to REI to buy maps and supplies, so it was really wonderful to talk to someone who could suggest a different, kid-appropriate hike in another area. We actually took his second recommendation because we'd already backpacked the first suggestion two years earlier. I was just glad he knew the parks well.
- I've been using the service since I returned to backpacking in 2006 or so. The rangers there are some of the best people I've had the good fortune to meet. They have sent me on adventures with my teenaged daughter that neither of us will ever forget. I send anyone who I think can benefit to that station as a result, and have sung their praises to all who will listen. They are very thoughtful about their recommendations, they tailor the hikes to the weather and the hikers' experience level, and they share my enthusiasm and have an even greater knowledge of the NW backcountry than my 45 years' worth. One of the best services provided by the federal government in my opinion. A valuable addition and a big draw to the REI store as well.
- It was nice to talk to someone face-to-face. I don't find the information on the website very useful for planning a day trip like ours.
- It's great to have this service in such a convenient location! It is much easier to get information this way than on the Internet. Thanks!
- Love having the resource
- Thank you!! Very friendly staff.
- Thank you. I often use this station, in person or over the phone, as an information hub before trips or deciding on where to go. They have good knowledge of trails and conditions across the region, where some other stations are limited to only their specific area. I would love to see a "live chat" area on the website, so I can limit going in person and can be done quicker than calling.
The information and advice that we received was very helpful. I think if we had not gotten it we probably wouldn't have made it to our destination. The ranger provided us with a map and gave us additional information on how to get to where we wanted to go. He also advised us to leave early in order to do all the things we wanted to do. We were really pleased and thankful for all of that.

The people there were very friendly, helpful and excited about my trip. It was a pleasure talking with them.

The ranger acted like he really didn't have time for inexperienced hikers like us. He answered our questions but didn’t add any extra information.

They are so friendly and nice. They give you great advice. I really like how they listen to where you want to hike, and then they build on it with more or sometimes better/different advice. They have never once steered me wrong on a hike. I sometimes go there just to get a trail idea, for our upcoming hikes.

They were able to give us a comprehensive overview of our alternatives including state and county parks, as opposed my call to the Cle Elum Ranger Station that was only able to help with their area.

They were very nice men. The young woman that was doing an internship was a knock out.

Very friendly and helpful staff

Very friendly, and we got a general idea about good places to camp closer to Seattle due to weather on the other side of the mountains, but not much specific information.

Very knowledgeable staff

Very professional and knowledgeable. Enthusiastic.

We asked a question about the National Forest and the ranger said he only had the information that was on the web

Wish I had known of this service years earlier
Appendix 1: The Questionnaire
Dear Recreation User,

The Ranger Station at the REI store in Seattle (known as the Outdoor Recreation Information Center or “ORIC”) is a multi-agency operation that provides information on recreation in the area. To improve the quality of services, the staff of ORIC would like to hear your opinions. We’d like to know how the Center is meeting visitors’ needs, and how it can be improved. This short survey should take about 10 minutes to complete.

Please complete the following questionnaire and place it in the drop box when you are done. The information you provide is very important in the planning and management of ORIC. Your participation is greatly appreciated.

Results of this study will be available to the public in 2013 and will be posted on the web at www.nps.gov/klse and www.psu.uidaho.edu.

If you have any questions, please contact Lena Le, NPS Visitor Services Project, College of Natural Resources, University of Idaho, P.O. Box 441139, Moscow, ID, 83844-1139; email: lenale@uidaho.edu.

Jacqueline Ashwell
Superintendent, Klondike Gold Rush National Historical Park- Seattle Unit

Thank you for your help. Please place the completed questionnaire in the drop box provided.

_Paperwork Reduction Act Statement:_ The Paperwork Reduction Act requires us to tell you why we are collecting this information, how we will use it, and whether or not you have to respond. This information will be used by the National Park Service as authorized by 16 U.S.C. 1a-7. We will use this information to evaluate visitor services cooperatively managed by Klondike Gold Rush Seattle Unit. Your response is voluntary. A Federal agency may not conduct or sponsor and you are not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. We estimate that it will take an average of 10 minutes to complete the survey associated with this collection of information. You may send comments concerning the burden estimates or any aspect of this information collection to Lena Le, NPS Visitor Services Project, College of Natural Resources, University of Idaho, P.O. Box 441139, Moscow, ID, 83844-1139; email: lenale@uidaho.edu.
On-line questionnaire (Pre-trip)

Dear Recreation User,

The Ranger Information Station at the REI store in Seattle (known as the Outdoor Recreation Information Center or “ORIC”) is a multi-agency operation that provides recreational information for the area. To improve the quality of services, the staff of the Ranger Information Station would like to hear your opinions. We’d like to know how the station is meeting visitors’ needs, and how it can be improved.

Thank you for participating in this important study. This survey should only take about 10 minutes to complete. Your opinion is greatly appreciated.

Jacqueline Ashwell
Superintendent
Klondike Gold Rush National Historical Park- Seattle Unit
1. What was your primary reason for calling the Ranger Information Station at the Seattle REI today, instead of visiting it in person? Please mark (●) one.

   O I live too far from the REI store
   O I would rather call the Ranger Information Station than wait in line
   O Traffic/parking in downtown Seattle is too difficult
   O Other (Specify) ___________________________________________

2. How did you find out about the Ranger Information Station at the Seattle REI? Please mark (●) all that apply.

   O Have used it in the past
   O Referred to by friends/relatives/REI employees/word of mouth
   O Social media (Facebook, Twitter, etc.)
   O Printed materials (senior center flyer, guide book, backside of Green Trails map, etc.)
   O Internet website (Specify) ___________________________________________
   O Referred to by staff at a recreational area (Specify) ______________________
   O Other (Specify) ___________________________________________

3. What was your motivation for calling the Ranger Information Station? Please mark (●) one.

   O I didn’t know about its existence until the day I called; I just wanted to check it out
   O I prefer to get information from the Ranger Information Station rather than using other sources
   O I had enough information; I just wanted to confirm
   O I needed information in addition to what I already had
   O I had too much information and needed help sorting it out
   O Other (Specify) ___________________________________________

4. Which recreational areas were you seeking information about when you called?

   O Didn’t have a specific area in mind; looking for suggestions

   OR, Please list all ___________________________________________

5. a) Prior to talking to Ranger Station staff, were you aware of the different recreational pass options in Washington state?

   O Yes       O No

Paperwork Reduction Act Statement: The Paperwork Reduction Act requires us to tell you why we are collecting this information, how we will use it, and whether or not you have to respond. This information will be used by the National Park Service as authorized by 16 U.S.C. 1a-7. We will use this information to evaluate visitor services provided at the Ranger Information Station at the REI store in Seattle (known as the Outdoor Recreation Information Center). Your response is voluntary. At the completion of this collection all personal information will be destroyed and in no way be connected with the results of this survey. A Federal agency may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. We estimate that it will take an average of 10 minutes to complete the survey associated with this collection of information. You may send comments concerning the burden estimates or any aspect of this information collection to Margaret Littlejohn, NPS Visitor Services Project, College of Natural Resources, University of Idaho, P.O. Box 441139, Moscow, ID, 83844-1139; email: littlej@uidaho.edu.
Post trip questionnaire (on-line and only applicable for those who will travel in within 2 weeks)

OMB approval # 1040-0001
Expiration date 01/14/2013

Dear Recreation User,

About two weeks ago, you contacted the Ranger Station at the REI store in Seattle (known as the Outdoor Recreation Information Center, or ‘ORIC’) to obtain recreational information to prepare for your trip. During this time you completed a survey. You also provided us with your contact information for a follow-up survey in which you agreed to participate.

This survey is very important for determining the quality of the information you received at ORIC. The results of this study will help the National Park Service (the agency responsible for the operation of ORIC) to plan for recruitment and employee training. Only a small number of participants was selected, at random, to complete this survey. Your opinion is very important to us.

Jacqueline Ashwell
Superintendent
Klondike Gold Rush National Historical Park- Seattle Unit
