OBJECTIVES

3.1 This MOU establishes a comprehensive framework for implementing a cooperative program of work on mutually decided topics related to LBS in order to improve the understanding of the Participants' national LBS programs, leverage their industrial and technological excellence and thereby enhance interoperability.

3.1.1 This MOU, therefore, provides the means for the Participants to define and establish the general principles which will apply to the initiation, conduct, and management of information exchange, harmonization and alignment efforts and LBS PAs entered into by the Participants in accordance with this MOU.

3.1.2 Further, this MOU provides the means for the Participants to acquaint each other with any LBS issues in order to avoid unnecessary duplication of national LBS defense programs and promotes a concerted action to identify and close important gaps in their LBS defense capabilities.
SECTION IV

SCOPE OF WORK

4.1 The scope of the work under this MOU includes, but is not limited to:

4.1.1 conducting informed discussions and information exchanges for national study, evaluation and assessment efforts for the purposes of investigating capability gaps, exploring opportunities for requirements harmonization, improving understanding of Participants’ national LBS programs, and identifying areas of potential cooperation or for use in national LBS programs to enhance Participants’ interoperability.

4.1.2 addressing specific LBS issues and capabilities, including but not limited to:
   4.1.2.1 tactics, techniques, methods and procedures for the employment of LBS;
   4.1.2.2 the identification of system modifications;
   4.1.2.3 enhancement of interoperability between Participants’ systems;

4.2.1.2.1 such transfers should be necessary or useful to the conduct of the LBS Activities as determined by the providing Participant; and

4.2.1.2.2 such transfers may occur only where the providing Participant has obtained national authority for such release, in writing. Such release may be subject to restrictions on use imposed by the providing Participant.

4.2.2 Working Groups (WGs):

4.2.2.1 WGs may be established to explore, study, and report on specific LBS issues. A WG will be limited in scope to a single, well-defined area and will endeavor to assess the LBS issue based on information provided by the Participants in such a way as to arrive at a jointly determined position within a set time limit. Each WG will have its own written TOR.

4.2.3 LBS Project Arrangements (PA):

4.2.3.1 Each LBS PA will include specific provisions, consistent with this MOU, concerning the objectives, scope, sharing of work, management structure, financial arrangements, contractual arrangements (if required), exchange or assignment of personnel (if required), Equipment and Material Transfer (E&MT) and disposal (if required), disclosure and use of information and security classification guidance. 4.2.5 Advanced Concept Technology Demonstrations (ACTDs):

Page 15 of 70
4.2.5.1 The Participants recognize that it may be to their mutual advantage to conduct technology demonstrations, such as ACTDs, to evaluate evolving technology and LBS concepts. The plan for the demonstrations will be documented in a LBS PA (Annex A) tailored to the specifics of the project.

4.2.6 **Familiarization Visits:**

4.2.6.1 Familiarization visits may occur, in accordance with Section XII (Visits to Establishments) to promote awareness of each others’ facilities and to identify potential cooperative opportunities.

The SC will have overall authority over the PMs, in accordance with this MOU. The PMs will have primary responsibility for effective implementation, efficient management, and direction of the subsequently developed PAs in accordance with this MOU. The Participants will maintain and fund their own organizations for managing LBS Activities. The Participants may assign military or civilian employees to serve as CPPs in support of LBS Activities.

5.2. For each specific PA, Project Officers (POs) appointed by the Participants will be responsible for carrying out the scope of work. PAs will allow for establishment of a JPO.

5.3. The SC will consist of the U.S. Army's Program Manager, Unit of Action, and the UK Ministry of Defence's Director of Equipment Capability (Ground Manoeuvre). The SC will meet every six months, with additional meetings held at the request of either Participant. The representative hosting the meeting will chair the meeting. The Participants will alternate hosting the SC meetings unless otherwise decided. Decisions of the SC will be made unanimously. In the event that the SC is unable to reach a timely decision on an issue, each SC representative will refer the issue to their higher authorities for resolution. In the meantime, existing PAs will continue to be implemented without interruption under the direction of the respective PM pending resolution of the issue.

5.4. The SC will be responsible for:

5.4.1 Exercising executive-level oversight and direction of the Project.
5.4.2 Approving the establishment of WGs and their TOR.
5.4.3 Reviewing the status reports submitted by the PMs.
5.4.4 Reviewing progress of PAs.
5.4.5 Maintaining oversight of the security aspects of this MOU.
5.4.6 Resolving issues brought forth by the PMs.
5.4.7 Reviewing and forwarding to the Participants for approval recommended amendments to this MOU in accordance with Section XX (Entry Into Effect, Duration, Amendment and Termination).

5.5 The PMs will be responsible for:

5.5.1 Managing the day-to-day activities associated with this MOU.

5.5.2 Reviewing and recommending TOR for WGs and forwarding to the SC for approval.

5.5.3 Referring issues to the SC that cannot be resolved by the PMs.

5.5.4 Developing and recommending amendments to this MOU and its Annexes to the SC.

5.5.5 Ensuring appointment of Project Security Officers.

5.5.6 Ensuring development of and forwarding to the SC a Project Security Instruction and a Classification Guide for the MOU within three months after signature of the MOU, and implementing them upon final approval by the DSA.

5.5.7 Forwarding recommendations to the SC for the addition of new Participants in accordance with Section XVI (Participation of Additional Nations).

5.5.8 Providing status reports to the SC.

5.5.9 Implementing actions as directed by the SC.

5.6 The POs’ duties will be defined in detail in the specific PAs. However, generally they will be responsible for:
5.6.1 Managing and executing the cost, schedule, performance requirements, technical, and financial aspects (in accordance with Section VI of this MOU) of a PA.

5.6.2 Ensuring appointment of a designated PA Security Manager(s).

5.6.3 Ensuring development of and forwarding to the PMs the Classification Guide for the PA and any proposed updates to the MOU Project Security Instruction within three months after signature of a PA, and implementing them upon final approval.

5.7 Working Groups

5.7.1 WGs will be established by the SC as necessary to examine areas of mutual interest and/or to perform work under specific PAs of this MOU. WGs will consist of representatives from the Participants. Each Participant will have one vote in WG matters, although a Participant may have as many representatives attend WG meetings as the Participant deems necessary. WGs will meet at least annually, and more often if deemed necessary. The location and chairmanship of meetings will rotate between the Participants, with the hosting Participant providing, without charge, appropriate meeting facilities, including security and administrative support.

5.7.2 WGs will be responsible for:

5.7.2.1 Implementing their TOR. WGs will develop and submit required changes to their TOR to the PMs if applicable, then to the SC for approval.

5.7.2.2 Submitting a proposed PA through the PMs for review and endorsement to the SC for approval.

5.7.2.3 Interacting with and providing information to other WGs, as directed by either the PMs or the SC.

5.7.2.4 Referring issues to the PMs or the SC that cannot be resolved at the WG level.
SECTION VI

FINANCIAL PROVISIONS

6.1 This MOU itself creates no financial commitments regarding individual PAs or any other activity. Detailed descriptions of the Financial and Non-financial provisions for a specific PA or other activity including each Participant’s accepted cost share will be described and approved in that PA.

6.2 Each Participant will contribute its equitable share of the full Financial Costs and Non-financial Costs of the PA(s), including overhead costs, administrative costs, and costs of claims, and will receive an equitable share of the results of each PA as mutually determined by the Participants.

6.3 For each PA, the POs will be responsible for proposing and managing the detailed financial management procedures under which the PA will operate. These procedures, as required, will be detailed in a Financial Management Procedures Document (FMPD) proposed by the POs and agreed by the PMs.

6.4. The following costs will be borne entirely by the Participant incurring the costs or on whose behalf the costs are incurred:

6.4.1 costs associated with national representation at meetings;

6.4.2 costs associated with any unique national requirements identified by a Participant;

6.4.3 any other costs not expressly stated as shared costs or any costs that are outside the scope of this MOU and its PAs.

6.5 Each Participant will perform, or have performed, its tasks and will use its best efforts to perform the tasks within the cost estimates specified in each PA. Each Participant will bear the full costs it incurs for performing, managing, and administering its own activities under this MOU and participation in each PA, including its share of the costs of any Contracts awarded pursuant to paragraph 6.11.

6.6 For PAs with shared costs that involve the establishment of a JPO with CPP assignments to the other PA Participant’s facilities or the JPO, the PA will address the Financial and Non-financial contribution required for JPO administration and associated support services including, but not limited to, JPO costs of travel incurred in support of Project efforts, JPO training costs, Contract award, Contract administration, office space, security services, information technology services, communications services, and supplies.
6.7 In addition to the shared costs of the JPO administration and associated support services costs described in paragraph 6.6, the cost of CPP in the JPO or assigned to the other Participant's facilities will be borne as follows:

6.7.1 The Host Participant will bear the cost of all pay and allowances of host personnel in the JPO.

6.7.2 The Parent Participant of the CPP will bear the following costs related to their CPP:

6.7.2.1 all pay and allowances in accordance with their national arrangements;
6.7.2.2 transportation of the CPP, the CPP's dependents, and their personal property to the place of assignment in the Host Participant's nation prior to the CPP's commencement of a tour of duty in the JPO or activity, and return transportation of the foregoing from the place of assignment in the Host Participant's nation upon completion or termination of the tour of duty;
6.7.2.3 subject to availability, the Host Participant will provide CPP with messing and accommodation to the same standard as would be provided to its own personnel. CPP will bear the costs of messing and accommodation, and in addition to rent will bear any applicable incidental costs which are not included in rental rates such as heating, gas, water, power, garbage disposal, etc.
6.7.2.4 compensation for loss of, or damage to, the personal property of CPP or the CPP's dependents, subject to the Parent Participant's laws and regulations;
6.7.2.5 preparation and shipment of remains and funeral expenses in the event of the death of the CPP or the CPP's dependents; and
6.7.2.6 all temporary duty costs, including travel costs, when such duty is carried out pursuant to a unique requirement of the Parent Participant.

6.8 For PAs that do not involve the establishment of a JPO, but do involve the assignment of one Participant's CPP to the facilities of another, the Participants will bear the costs as set forth in paragraph 6.7.2. The Host Participant will also be responsible for the following:

6.8.1 all temporary duty costs, including travel costs in connection with the performance of any duty pursuant to a requirement of the Host Participant carried out in support of a PA or other activities governed by the MOU;
6.8.2 costs incurred as a result of a change in location in work ordered by the Host Participant during the period of assignment;
6.8.3 administrative and support costs such as CPP-related training, office space, security services, information technology services, communications services, supplies, and use of facilities and equipment necessary for the performance of tasks assigned to the CPP.

6.9 A PA Participant will promptly notify the other PA Participant if available funds are not adequate to fulfill its obligations under a PA, or if it appears that the cost ceiling (or cost target) will be exceeded. The PA Participants will immediately consult with a view toward continuation on a modified basis. In the event that an understanding to continue on a modified basis cannot be reached by the PA Participants, the PA Participant having reduced or modified its funding will be deemed to have notified the other PA Participant of its intent to terminate the relevant PA, and the provisions of Section XX (Entry Into Effect, Duration, Amendment, and Termination) of this MOU will apply.

6.10 For PAs where a Participant contracts on behalf of the other Participant with the written authority of the other Participant, the POs will be responsible for proposing to the PM the detailed financial management procedures under which the PA will operate prior to the transfer of funds between the Participants. The procedures, which will accord with national accounting and audit requirements of the Participants, will be detailed in a FMPD. Each Participant will provide funds in the amounts and at the times planned in the estimated schedule for monetary contributions, as specified in the FMPD.

6.11 The Participants recognize that it may become necessary for one Participant, with the authority of the other Participant, to incur contractual or other responsibilities for the benefit of the other Participant prior to receipt of the other Participant’s funds. In the event that one Participant incurs such responsibilities, the other Participant will make such funds available in such amounts and at such times as may be required by the Contract or other responsibility, and will pay any damages and costs that may accrue from the performance of or cancellation of the Contract or other responsibility where such performance or cancellation is done following prior consultation with the other Participant, in advance of the time such payments, damages, or costs are due.

6.12 Each Participant will be responsible for the audit of its activities or its Contractors’ activities pursuant to a PA. A Participant’s audits will be in accordance with its own national practices. For PAs where funds are transferred between the Participants, the receiving Participant will be responsible for the internal audit regarding administration of the other Participant’s funds in accordance with the receiving Participant’s national practices. Audit reports of such funds will be promptly made available by the receiving Participant to the other Participant.

6.13 The Participant hosting the JPO or Contracting on behalf of the Participants will be responsible for the audit of the procurement activities for which it is responsible under the Project in accordance with its national practices. The Host Participant
will be responsible for the internal audit regarding administration of the other Participant’s Project funds in accordance with its national practices. Audit reports of such funds will be promptly made available by the Host Participant to the other Participant.

6.14 Where one Participant’s national auditors need to obtain additional specific data or to inspect records to be able to fulfill their national obligations, the other Participant will facilitate access to such information. Any audit reports will be made available to the other Participant.
SECTION VII

CONTRACTING PROVISIONS

7.1 If a Participant determines that Contracting is necessary to fulfill that Participant's responsibilities under Section IV (Scope of Work) of this MOU, that Participant will contract in accordance with its respective national laws, regulations, and procedures with such waivers and deviations its procedures permit and as deemed necessary to implement the provisions of this MOU. Where such Contracts are placed by competition, sources from the Participants’ industries will be allowed to compete on an equal basis for such Contracts.

7.2 When a Participant individually contracts to perform a task under this MOU, it will be solely responsible for its own Contracting, and the other Participant will not be subject to any liability arising from such Contracts, without its prior written consent.

7.3 Each Participant’s Contracting Agency will negotiate to obtain the rights to use and disclose Project Information required by Section X (Disclosure and Use of Project Information). Each Participant’s Contracting Agency will insert into its prospective Contracts (and require its subcontractors to insert in subcontracts) suitable provisions to satisfy the requirements of this MOU, including Section X (Disclosure and Use of Project Information), Section XI (Controlled Unclassified Information), Section XIII (Security), Section XIV (Third Party Sales and Transfers), and Section XX (Entry into Effect, Duration, Amendment and Termination), including suitable provisions for ensuring compliance with the Participants’ respective export control laws and implementing regulations. During the Contracting process, each Participant’s Contracting Officer will advise prospective Contractors of their responsibility to immediately notify the Contracting Agency, before Contract award, if they are subject to any license or agreement that will restrict that Participants’ freedom to disclose information or permit its use. The Contracting Officer will also advise prospective Contractors to employ their best efforts not to enter into any new agreement or arrangement that will result in restrictions.

7.4 In the event a Participant’s Contracting Agency is unable to secure adequate rights to use and disclose Project Information as required by Section X (Disclosure and Use of Project Information), or is notified by Contractors or potential Contractors of any restrictions on the disclosure and use of Project Information, that Participant's Contracting Agency will refer the matter to the PMs/JPO who will submit it to the SC for resolution.

7.5 The transfer of export-controlled information furnished by one Participant will be authorized by the Government of the furnishing Participant only to those Contractors of the other Participant who will limit the end use of the Information
received for the sole purpose of furthering the purposes authorized under this MOU or applicable PA. The Participants will establish legal arrangements with their Contractors to ensure that their Contractors do not retransfer or otherwise use export-controlled information for any purpose other than authorized under this MOU or the applicable PA. Such legal arrangements will also provide that the Contractor will not re-transfer the export-controlled information to another Contractor without the Government of the furnishing Participant’s consent.

7.6 Each Participant’s PO will promptly advise the other Participant’s PO of any cost growth, schedule delay, performance problems, or proposals to terminate any Contract for which its Contracting Agency is responsible.

7.7 The Contracting Officer will ensure that the PMs are provided with sufficient information concerning the Contract and its execution to enable them to fulfill their relevant responsibilities. The Contracting Participant’s Contracting Officer will be the exclusive source for providing contractual direction and instructions to Contractors.

7.8 Normal Contract administration services support (such as audit, quality assurance, pricing or cost investigations) will be provided in accordance with the Memorandum of Understanding between the Government of the United States of America and the Government of the United Kingdom Relating to the Principles Governing Cooperation in Research and Development, Production, Procurement, and Logistics Support of Defence Equipment, dated 13 December 1994, or any successor thereto or other existing arrangements between the Participants.

7.9 If the Participants determine that it is necessary under a PA that one Participant contract on behalf of the other Participant for tasks under that PA, the Participant will contract in accordance with its respective national laws, regulations, and procedures. Such contractual arrangements will be detailed in the particular PA. Where such Contracts are placed by competition, sources from the Participants’ industries will be allowed to compete on an equal basis for such Contracts. The Contracting Officer will be the exclusive source for providing contractual direction and instructions to Contractors. The POs will be responsible for the coordination of activities relating to this MOU and its PAs and will cooperate with the Contracting Officer in the areas of Contract procedures, Contract negotiation, evaluation of offers, and Contract award. The Contracting Officer will also keep the POs advised of all financial arrangements with Contractors.

7.10 Upon mutual consent, consistent with Section III (Objectives), a Participant may contract for the unique national requirements of the other Participant.
SECTION VIII

WORK SHARING

8.1 No requirement will be imposed on any Participant for work sharing or other industrial or commercial compensation in connection with this MOU that is not in accordance with this MOU.
SECTION IX

EQUIPMENT AND MATERIAL TRANSFERS

9.1 For the purpose of carrying out a PA, each Participant may transfer, without charge to the other Participant, such Equipment and Material identified in a PA as being necessary. Such a PA will provide specific details of any transfer of Equipment and Material. Equipment and Material will remain the property of the providing Participant. Equipment and Material identified at the time of PA signature will be detailed in the PA as set out in Annex A. Approval for all transfers will be in accordance with national procedures.

9.2 For transfers of Equipment and Material not documented in a PA, each Participant may transfer, without charge to the other Participant, Equipment and Material to be documented using the model at Annex C (E&MT Form). While such transfers will be based on the principle of reciprocity, exact item for item exchanges are not required. Approval for all transfers will be in accordance with national procedures.

9.3 The POs will maintain a list of all Equipment and Material transferred pursuant to a PA or E&MT Form. All Project Equipment that is transferred will be used by the receiving Participant only for the purposes of carrying out this MOU, unless otherwise consented to in writing by the providing Participant. In addition, in accordance with Section XIII (Third Party Sales and Transfers) Project Equipment will not be re-transferred to a Third Party without the prior written consent of the providing Participant.

9.4 Equipment and Material transferred will be used by the receiving Participant only for the purposes of this MOU. Equipment and Material will remain the property of the providing Participant. In addition, the receiving Participant will maintain the Equipment and Material in good order, repair, and operable condition. Unless the providing Participant has consented that the transferred Equipment and Material may be expended or otherwise consumed without reimbursement to the providing Participant, the receiving Participant will return the Equipment and Material to the providing Participant in as good condition as received, reasonable wear and tear excepted, or return the Equipment and Material and pay the cost to restore the Equipment and Material to such condition. If the Equipment and Material is damaged beyond economical repair, the receiving Participant will return the Equipment and Material to the providing Participant (unless otherwise specified in writing by the providing Participant) and pay the replacement value as computed pursuant to the providing Participant's national laws, regulations, and procedures. If the Equipment and Material is lost or stolen while in the custody of the receiving Participant, the receiving Participant will issue a certificate of loss to the providing Participant and pay the replacement value as computed pursuant to the providing Participant's national laws, regulations, and procedures. If known at the time of entry into effect, the replacement value of the Project Equipment will be specified in the PA and E&MT form. When appropriate, the providing and receiving Participants may
specify that in no case will any payment respecting damage or loss exceed the amount indicated in the applicable PA or E&MT Form.

9.5 The providing Participant will make every effort to ensure that the Equipment and Material is furnished in a serviceable and usable condition according to its intended purpose. However, the providing Participant makes no warranty or guarantee of fitness of the Equipment and Material for a particular purpose or use, and makes no commitment to alter, improve, or adapt the Equipment and Material, or any part thereof.

9.6 The providing Participant will transfer the Equipment and Material for the approved period, unless extended by written amendment, provided that the duration will not exceed the effective period of the PA or E&MT Form.

9.7 The providing Participant, at its expense, will deliver the Equipment and Material to the receiving Participant at the location mutually approved. Responsibility for Equipment and Material will pass from the providing Participant to the receiving Participant at time of receipt. Any further transportation is the responsibility of the receiving Participant.

9.8 The providing Participant will furnish the receiving Participant such information as is necessary to enable the Equipment and Material to be used, maintained, and safely operated for its intended purposes.

9.9 The receiving Participant will inspect the Equipment and Material upon receipt. The receiving Participant will also inspect the Equipment and Material prior to its return (unless the Equipment and Material is to be expended or consumed).

9.10 Upon expiration or termination of the transfer period specified in a PA or E&MT Form (taking into account any extension), the receiving Participant will return the Equipment and Material, at its expense, to the providing Participant at the location mutually approved. Any further transportation will be the responsibility of the providing Participant.

9.11 The receiving Participant will provide written notice of consumption or expenditure of Equipment and Material approved for such consumption or expenditure. In the event the intended consumption or expenditure does not occur, the receiving Participant will, unless otherwise determined by the providing Participant, return the Equipment and Material, at its expense, to the providing Participant at the location mutually approved. Any further transportation will be the responsibility of the providing Participant.

9.12 The Participants will ensure, by all reasonable means, the protection of intellectual property rights in Equipment and Material.
9.13 Any Equipment and Material that is jointly acquired on behalf of the PA Participants for use under a PA will be disposed of as mutually approved by them.

9.14 Disposal of jointly acquired Equipment and Material may include a transfer of the interest of the PA Participants in such Equipment and Material to one Participant, or the sale of such Equipment and Material to a Third Party in accordance with Section XII (Third Party Sales and Transfers). The PA Participants will share the consideration from jointly acquired Equipment and Material transferred or sold to a Third Party in the same ratio as costs are shared under the relevant PA to this MOU.
SECTION X

10.9.1.1 Provides that the Participant will hold title to all Project Inventions together with the right to make Patent applications for the same, free of encumbrance from the Contractor; or

10.9.1.2 Provides that the Contractor will hold title (or may elect to retain title) for Project Inventions together with the right to make Patent applications for the same, while securing for the Participants a license for the Project Inventions, and any Patents thereto, on terms in compliance with the provisions of paragraph 10.9.4 below.

10.9.2 In the event that a Contractor holds title (or elects to retain title) for a Project Invention, the Contracting Participant will secure for the other Participant a non-exclusive, irrevocable, royalty-free license under all Patents secured for that invention, to practice or have practiced the patented Project Invention for Defense Purposes throughout the world unless otherwise specified in a PA.

11.1.3 Each Participant will take all lawful steps, which may include national classification, available to it to keep such information free from further disclosure (including requests under any legislative provisions), except as provided in subparagraph 11.1.2, unless the originating Participant consents to such disclosure. In the event of unauthorized disclosure, or if it becomes probable that the information may have to be further disclosed under any legislative provisions, immediate notification will be given to the originating Participant.

11.2 To assist in providing the appropriate controls, the originating Participant will ensure that Controlled Unclassified Information is appropriately marked. The Participants will decide, in advance and in writing, on the markings to be placed on the Controlled Unclassified Information. The appropriate markings will be defined in the Project Security Instructions.

11.3 Controlled Unclassified Information provided or generated pursuant to this MOU will be handled in a manner that ensures control as provided for in paragraph 11.1.

13.1 All Classified Information or material provided or generated pursuant to this MOU will be stored, handled, transmitted, and safeguarded in accordance with the General Security Agreement between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America, dated 14 April 1961, as amended, including the Industrial Security Annex thereto, of 27 January 2003 as amended, and other relevant security agreements between the Participants.

13.2 Classified Information will be transferred only through official government-to-government channels or through channels approved by the Designated Security Authorities (DSAs) of the Participants. Such information will bear the level of classification; and denote the country of origin, the provisions of release, and the fact that the information relates to this MOU.

13.3 Each Participant will take all lawful steps available to it to ensure that Classified Information provided or generated pursuant to this MOU is protected from further disclosure, except as permitted by paragraph 13.9, unless the other Participant consents to such disclosure. Accordingly, each Participant will ensure that:

13.3.1 The recipient will not release the Classified Information to any government, national, organization, or any other entity of a Third Party without the prior written consent of the originating Participant in accordance with the procedures detailed in Section XIV (Third Party Sales and Transfers).

13.3.2 The recipient will not use the Classified Information for other than the purposes provided for in this MOU.

13.3.3 The recipient will comply with any distribution and access restrictions on information that is provided under this MOU.

13.4 The Participants will investigate all cases in which it is known or where there are grounds for suspecting that Classified Information provided or generated pursuant to this MOU has been lost or disclosed to unauthorized persons. Each Participant also will promptly and fully inform the other Participant of the details of any such occurrences, of the final results of the investigation, and of the corrective action taken to preclude recurrences.

13.5 A Project Security Instruction (PSI) and Classification Guide (CG) for the Project will be jointly prepared by the PMs within three months after this MOU enters into effect and forwarded for approval by the appropriate DSAs. The PSI and CG will describe the methods by which Project Background Information, Project
Foreground Information and material will be classified, marked, used, transmitted, and safeguarded and will be applicable to all government and Contractor personnel participating in the Project. The PSI and CG will be subject to regular review and revision whenever this is appropriate.

13.6 The Participants recognize that certain Classified Project Information, both Foreground and Background, may be subject to special restrictions which will be established in accordance with the PSI.

13.7 When any LBS Activity contains provisions for the exchange of Classified Information or Materiel, POs (for PAs) and PMs (for WGs and Information Exchange) will jointly prepare an updated PSI, as necessary, and a CG for the LBS Activity. The PSI and CG will be developed by the POs (for PAs) and PMs (for WGs and Information Exchange) within three months after a LBS Activity enters into effect. They will be reviewed and forwarded to the appropriate DSAs, and will be applicable to all government and Contractor personnel participating in the LBS Activity.

13.8 The DSA of the Participant in which a classified Contract is awarded will assume responsibility for administering within its territory security measures for the protection of the Classified Information, in accordance with its laws and regulations. Prior to the release to a Contractor, prospective Contractor, or Subcontractor of any Classified Information received under this MOU, the DSA will:

13.8.1 Ensure that such Contractor, prospective Contractor or subcontractor and their facility (ies) have the capability to protect the Classified Information adequately.

13.8.2 Grant a security clearance to the facility (ies), if appropriate.

13.8.3 Grant a security clearance for all personnel whose duties require access to Classified Information, if appropriate.

13.8.4 Ensure that all persons having access to the Classified Information are informed of their responsibilities to protect the Classified Information in accordance with national security laws and regulations, and provisions of this MOU.

13.8.6 Ensure that access to the Classified Information is limited to those persons who have a need-to-know for the purposes of the MOU.
13.9 Contractors, prospective Contractors, or subcontractors which are determined by DSAs to be under financial, administrative, policy or management control of nationals or entities of a Third Party, may participate in a Contract or subcontract requiring access to Classified Information provided or generated pursuant to this MOU only when enforceable measures are in effect to ensure that nationals or other entities of a Third Party will not have access to Classified Information. If enforceable measures are not in effect to preclude access by nationals or other entities of a Third Party, the other Participant will be consulted for approval prior to permitting such access.

13.10 For any facility wherein Classified Information is to be used, the responsible Participant or Contractor will approve the appointment of a person or persons to exercise effectively the responsibilities for safeguarding at such facility the information pertaining to this MOU. These officials will be responsible for limiting access to Classified Information involved in this MOU to those persons who have been properly approved for access and have a need-to-know.

13.11 Each Participant will ensure that access to the Classified Information is limited to those persons who possess requisite security clearances and have a specific need for access to the Classified Information in order to participate in the Project.

13.12 Information or material provided or generated in accordance with the MOU may be classified up to and including Secret. Information exchanged or generated pursuant to a PA may, on a case-by-case basis, be classified as high as Top Secret if such is consistent with the national disclosure policies of the Participants. The existence of this MOU is Unclassified and the contents are Unclassified.
SECTION XIV

THIRD PARTY SALES AND TRANSFERS

14.1 The Participants will not sell, transfer title to, disclose, or transfer possession of Project Foreground Information, jointly acquired Equipment and Material, or any item produced either wholly or in part from Project Foreground Information to any Third Party without the prior written consent of the Government of the other Participant. Furthermore, the Participants will not permit any such sale, disclosure, or transfer, including by the owner of the item, without the prior written consent of the Government of the other Participant. Such consent will not be given unless the Government of the intended recipient consents in writing with the other Participant that it will:

14.1.1 not retransfer, or permit the further retransfer of, any equipment or information provided; and

14.1.2 use, or permit the use of, the equipment or information provided only for the purposes specified by the Participants.

14.2 The Participants will not sell, transfer title to, disclose, or transfer possession of Equipment and Material or Project Background Information provided by the other Participant to any Third Party without the prior written consent of the Government of the Participant that provided such equipment or information. The providing Participant’s Government will be solely responsible for authorizing such transfers and, as applicable, specifying the method and provisions for implementing such transfers.

14.3 Consent for Third Party sales and transfers of Project Foreground Information, jointly acquired Project Equipment, or any item produced either wholly or in part from Project Foreground Information will be subject to foreign policy, national security considerations, and national laws, regulations and policies. A Participant’s Government’s approval of the other Participant’s Government’s proposed sale or transfer to a Third Party will take into account its willingness to sell or transfer such equipment or information to the same Third Party.
15.1 Claims against any Participant or its personnel will be dealt with in accordance with the provisions of Article VIII of the NATO Status of Forces Agreement (NATO SOFA) dated 19 June 1951. Civilian employees of the Participants assigned to duty within their Government's Defense Department or Ministry will be deemed for the purpose of Article VIII of NATO SOFA to be members of a civilian component within the meaning of Article I of NATO SOFA while present in the territory of the other Participant for the purpose of this MOU.

15.2 Claims arising under or related to any Contract awarded pursuant to Section VI (Contracting Provisions) will be resolved in accordance with the provisions of the Contract.

15.3 Employees and agents of Contractors will not be considered to be civilian personnel employed by a Participant for the purpose of paragraph 15.1.
SECTION XVI

PARTICIPATION OF ADDITIONAL NATIONS

16.1 It is recognized that other national defense organizations may wish to join this MOU.

16.2 Mutual consent of the Participants will be required to conduct discussions with potential additional Participants. The Participants will discuss the arrangements under which another Participant might join, including the furnishing of releasable Project Information for evaluation prior to joining. If the disclosure of Project Information is necessary to conduct discussions, such disclosure will be in accordance with Section X (Disclosure and Use of Project Information), Section XI (Controlled Unclassified Information), and Section XIV (Third Party Sales and Transfers).

16.3 The SC will jointly formulate the provisions under which additional Participants may join, having regard to advice provided by the PMs. The addition of new Participants will require an amendment to this MOU.

16.4 Where any additional Participant joins this MOU, the expression “the other Participant” wherever used in this MOU will be read as “the other Participants” unless the context otherwise requires.
17.1 Customs duties, import and export taxes, and similar charges will be administered in accordance with each Participant's respective laws and regulations. Insofar as existing national laws and regulations permit, the Participants will endeavor to ensure that such readily identifiable duties, taxes, and similar charges, as well as quantitative or other restrictions on imports and exports, are not imposed in connection with work carried out under this MOU.

17.2 Each Participant will use its best efforts to ensure that customs duties, import and export taxes, and similar charges are administered in a manner favorable to the efficient and economical conduct of the work. If any such duties, taxes, or similar charges are levied, the Participant in whose country they are levied will bear such costs as a cost to that Participant over and above that Participant’s financial contribution under this MOU.

17.3 If, in order to apply European Community regulations, it is necessary to levy duties, then these will be met by the European Member recipient. To this end, parts or components of the equipment coming from outside of the European Community will proceed to their final destination accompanied by the relevant customs document enabling settlement of duties to take place. The duty will be levied as a cost over and above the relevant Participant’s cost of this MOU.
18.1 Disputes between the Participants arising under or relating to this MOU or associated PAs will be resolved only by consultation between the Participants of this MOU or the relevant PA and will not be referred to a national court, to an international tribunal, or to any other person or entity for settlement.
SECTION XIX

GENERAL PROVISIONS

19.1 All activities of the Participants under this MOU will be carried out in accordance with their national laws and regulations, including their export control laws and export control regulations. The responsibilities of the Participants will be subject to the availability of funds for such purposes.

19.2 In the event of a conflict between a Section of this MOU and any Annex to this MOU or subsequently established PAs under this MOU, the MOU will take precedence. However, a PA under this MOU may contain specific provisions that are identified as deviating from the provisions of this MOU, in which case the deviating PA provisions will govern for that PA.
SECTION XX

ENTRY INTO EFFECT, DURATION, AMENDMENT AND TERMINATION

20.1 This MOU may be amended by the mutual written consent of the Participants.

20.2 This MOU or a PA to this MOU may be terminated at any time upon the written consent of the Participants. In the event that the Participants consent to terminate this MOU, the Participants will consult prior to the date of termination to ensure termination on the most economical and equitable provisions.

20.3 A Participant may terminate this MOU or any of its PAs or E&MTs upon 90 days written notification of its intent to terminate to the other Participant. Such notice will be the subject of immediate consultation by the SC to decide upon the appropriate course of action to conclude the activities under this MOU. In the event of such termination, the following rules apply:

20.3.1 The terminating Participant will continue participation, financial or otherwise, up to the effective date of termination of the MOU, PA, or E&MT as appropriate.

20.3.2 Except as to Contracts awarded on behalf of the Participants, each Participant will be responsible for its own Project-related costs associated with termination of the MOU, PA or E&MT. For Contracts awarded on behalf of both Participants, the terminating Participant will pay all Contract modification or termination costs that would not otherwise have been incurred but for the decision to terminate; in no event, however, will a terminating Participant’s total financial contribution, including Contract termination costs, exceed that Participant’s Total Cost Ceiling for financial contributions as established in the individual PAs.

20.3.3 All Project Information and rights therein received under the provisions of this MOU or PAs prior to the termination will be retained by the Participants, subject to the provisions of this MOU and its PAs or E&MTs.

20.3.4 If requested by the other Participant, the terminating Participant may continue to administer the Project Contract(s) which it awarded on behalf of the other Participant, on a reimbursable basis.

20.3.5 Specific Project termination provisions consistent with this Section may be established in PAs.

20.4 The respective benefits and responsibilities of the Participants regarding Section IX (Equipment and Material), Section X (Disclosure and Use of Project Information),
Section XI (Controlled Unclassified Information), Section XIII (Security), Section XIV (Third Party Sales and Transfers), Section XV (Liability and Claims), Section XVIII (Settlement of Disputes), Section XIX (General Provisions), and this Section XX (Entry into Effect, Duration, Amendments and Termination) will continue to apply notwithstanding termination or expiration of this MOU or its PAs.

20.5 This MOU, which consists of twenty (20) Sections and three (3) Annexes, will enter into effect upon signature by both Participants and will remain in effect for 20 years. It may be extended by written consent of the Participants. PAs will enter into effect upon signature by the authorized representatives of the PA Participants. All PAs will automatically terminate upon the termination or expiration of this MOU.

1.0 Purpose and Scope.

1.1 This Annex to the LBS MOU establishes the provisions that will govern the conduct of the Cooperative Project Personnel (CPP). During the term of the MOU, each Participant will be permitted to assign military members or civilian employees to a Joint Project office (JPO) established under this MOU or to other LBS Activities designated by the SC. CPP will be able to perform all responsibilities for the positions assigned to them under this MOU or in conjunction with a PA. Commencement of assignments will be subject to any requirements that may be imposed by the other Participant or its Government regarding acceptance of CPP, such as, but not limited to, visas and visit request documentation. The Participants will determine the length of tour for the positions at the time of initial assignment.

1.2 CPP will be assigned to a JPO or to other LBS activities for Project work (including work at Participant Contractor facilities) and will report to their designated supervisor within those organizations regarding that work. The designated supervisor will be responsible for the creation of a document describing the duties of each CPP position (Annex B-1), and submit to the PMs for approval. CPP will not act in any other capacity on behalf of their Parent Participant’s organization (such as liaison officers).

1.3 CPP will not be assigned to command or other positions that would require them to exercise responsibilities that are reserved by law or regulation to an officer or employee of the Host Participant’s government.

2.0 Security.

2.1 The Participants will establish the maximum level of security clearance required, if any, to permit CPP to have access to Classified Information and facilities in which Classified Information is used in accordance with the Project Security Instructions (PSI) and Classification Guide (CG). Access to Classified Information and facilities in which classified Information is used will be consistent with, and limited by, Section III (Objectives) and Section IV (Scope of Work) of the PA and the corresponding provisions of this Annex and the MOU, and will be kept to the minimum required to accomplish the work assignments.
2.2 The Parent Participant will file visit requests for the CPP through prescribed channels in compliance with the Host Participant’s procedures. The Participants will cause security assurances to be filed, through their respective embassies, specifying the security clearances for the CPP being assigned. The security assurances will be prepared and forwarded through prescribed channels in compliance with established procedures.

2.3 The Participants will use their best efforts to ensure that personnel from both Participants assigned to the JPO or activities are made aware of, and comply with, applicable laws and regulations, as well as the requirements of Section X (Disclosure and Use of Project Information), Section XI (Controlled Unclassified Information), and Section XIII (Security) of the MOU, and the corresponding provisions of this Annex, and the PSI and CG. Prior to commencing assigned duties, CPP will, if required by the Host Participant’s laws, regulations, policies, or procedures, sign a certification concerning the conditions and responsibilities of CPP.

2.4 CPP will at all times be required to comply with the security and export laws, regulations, and procedures of the Host Participant, as briefed in accordance with paragraph 3.2 of this Annex. Any violation of security or export procedures by CPP during their assignment will be reported to the Parent Participant for appropriate action. CPP committing willful violations of security or export laws, regulations, or procedures during their assignments will be withdrawn from the Project with a view toward appropriate administrative or disciplinary action by the Parent Participant.

2.5 All Classified Information made available to CPP will be considered as Classified Information furnished to the Parent Participant, and will be subject to all of the provisions and safeguards provided for in a PA, this Annex, the MOU, the PSI and CG.

2.6 CPP will not have personal custody of Classified Information or Controlled Unclassified Information, unless approved by the JPO or Host Participant and as authorized by the Parent Participant. They will be granted access to such information in accordance with the provisions of the PSI during normal duty hours when access is necessary to perform Project work. They may not have unsupervised access to classified libraries or operating centers, or to document catalogues, unless the information therein is releasable to the public.

2.7 CPP will not serve as a conduit between the Host Participant and the Parent Participant for requests for and/or transmissions of Classified Information or Controlled Unclassified Information unless specifically authorized in the PSI.
3.0 Administrative Matters.

3.1 Consistent with Host Participant's laws and regulations, and subject to applicable multilateral and bilateral treaties, agreements and arrangements, CPP will be subject to the same restrictions, conditions, and privileges as Host Participant personnel of comparable rank and in comparable assignments. Further, to the extent authorized by the Host Participant’s laws and regulations, and applicable multilateral and bilateral treaties, agreements and arrangements, CPP and their authorized dependents will be accorded:

3.1.1 Exemption from any Host Participant tax upon income received from the Parent Participant’s organization.

3.1.2 Exemption from any Host Participant customs and import duties or similar charges levied on items entering the country for their official or personal use, including their baggage, household effects, and private motor vehicles.

3.2 Upon or shortly after arrival, CPP will be informed by the Host Participant duty station about applicable laws, orders, regulations, and customs and the need to comply with them. CPP will also be provided briefings arranged by Host Participant duty station regarding applicable entitlements, privileges, and obligations such as:

3.2.1 Any medical or dental care that may be provided to CPP and their dependents at the Host Participant's medical facilities, subject to applicable laws and regulations, including reimbursement when required by such laws and regulations, and any bilateral or multilateral agreements or arrangements.

3.2.2 Purchasing and patronage privileges at military commissaries, exchanges, theaters, and clubs for CPP and their dependents, subject to applicable laws and regulations, and any bilateral or multilateral agreements or arrangements.

3.2.3 Responsibility of CPP and those dependents accompanying them to obtain motor vehicle liability insurance coverage in accordance with laws and regulations applicable in the area where they are residing. In case of claims involving the use of private motor vehicles by CPP and their dependents, the recourse will be against such insurance.

3.3 The PMs, through the JPO and Host Participant activities, will establish standard operating procedures for CPP in the following areas:

3.3.1 Working hours, including holiday schedules.
3.3.2 Leave authorization, consistent to the extent possible with the military or civilian personnel regulations and practices of the Participants.

3.3.3 Dress regulations, consistent to the extent possible with the military or civilian personnel regulations and practices of the Participants.

3.3.4 Performance evaluations, recognizing that such evaluations must be rendered in accordance with the providing Participant’s military or civilian personnel regulations and practices.

3.4 CPP committing an offense under the laws of the government of either the Parent or Host Participant may be withdrawn from this Project with a view toward further administrative or disciplinary action by the Parent Participant. Disciplinary action, however, will not be taken by the Host Participant against CPP from the Parent Participant, nor will CPP from the Parent Participant exercise disciplinary authority over Host Participant personnel. In accordance with the Host Participant’s laws, regulations, and procedures, the Host participant will assist the Parent Participant in carrying out investigations of offenses involving CPP.
